This eighth edition retains all of the classic features that have contributed to the book's success: clarity of expression, the focus on the accounting equation, student activities and real-life commentaries running through each chapter, and the inclusion of the Safe and Sure Annual Report as an example of a listed company. Written by an expert teacher in Accounting, the eighth edition of this well-respected text retains all the features that have contributed to the book's popularity: focus on the accounting equation, an even greater range of student activities throughout each chapter, a clear and accessible writing style, and extensive use of real-world case studies. With a strong emphasis on the 2018 Conceptual Framework of the International Accounting Standards Board, *Financial & Management Accounting: An Introduction* guides students in understanding the 'why' and not just the 'what' of financial and management accounting. Key features: Definitions and terminology are aligned with the 2018 IASB Conceptual Framework Fully up-to-date with the International Financial Reporting Standards (IFRS) New case studies giving examples from real-world companies Activities aligned to each section of a chapter to encourage students to explore and consider issues from different angles Expanded for this edition, experience-driven conversations between two managers are included throughout, updated with an even more practical emphasis Coverage on fair value throughout Exploration of the Strategic Report and Directors' Report Focuses on specific knowledge outcomes, with end-of-chapter self-evaluation

Are you looking for an engaging, decision-focussed approach to financial reporting that encourages students to develop their interpretative skills? Building on the success of the first edition, this textbook takes a 'how, why, what' approach to financial accounting, interwoven in each chapter. From chapter one, students understand how financial information is prepared and presented, why it is prepared and presented in this way, and what the resulting financial information means for users. Designed for students taking a step beyond their introductory financial accounting training, the textbook equips them with all the key tools they will

require when they enter professional practice. Reflective of the latest International Financial Reporting Standards (IFRS) and International Accounting Standards (IAS), this textbook delivers concise, clear explanations of all the key issues in accounting standards that students need to know. Content maps to professional accounting body syllabi, making this the perfect choice for accounting courses which offer exemptions. Chapters are rich with 3 types of examples to enhance understanding: - Illustrative examples of real-world situations; - Worked examples demonstrating the calculation of figures required for financial statements; - Extracts from company annual reports demonstrate how the theory relates to financial reporting in practice. More engaging, more balanced, and more applied than other offerings, this is exactly the textbook your financial reporting students need! An extensive Online Resource Centre accompanies the textbook and includes: For students: DT Solutions to all the end-of-chapter questions in the book including walkthroughs of solutions to key questions; DT Additional graded questions including professional body questions; DT Additional interpretative case studies based on real-life companies; DT A guided tour through a company report DT Specific study skills tips for accounting students For lecturers: DT Customisable PowerPoint slides DT Solutions to all the additional online questions DT Outline solutions to the interpretative case studies DT Group discussion questions
