Theology of the Hammer In order for us as a society to move forward, I believe that we must adapt the same central ideas that Habitat for Humanity implements. The mission for Habitat for Humanity simply is to eliminate poverty housing by partnering with families to build and renovate houses. They implement "Matching the Word with Deed" (Fuller 21).

Millard Fuller had come face-to-face with the reality of the American dream: a millionaire workaholic with a marriage on the skids. The cure -- the Fullers sold their business, donated all the money to charity, and went in search of a new dream. Today Fuller and his wife are sharing that dream: Habitat for Humanity.

A classic Swedish novel about love, faith and spiritual renewal told in the form of a mystery novel.

In these pages you will find inspiring, true stories of people who didn't have hope?until they had a home. Stories of children who gained identity and confidence for their future. Of families made stronger and healthier and prison inmates who are now giving back to their communities. Of entire communities bonding together around an ethic of hard work and mutual respect. Of denominational, political, and racial barriers falling with every swing of the hammer. Of a growing host of young people engaged in the quest to end poverty housing. And even some wonderful love stories. The end result is nothing less than the transformation of lives, communities, and families?one person, one home at a time. Which, of course, has always been the dream?to build more than houses. "Habitat for Humanity is building much more than houses. By building hope it is building relationships, strengthening communities, and nurturing families." ?Actor Paul Newman, Habitat supporter "Rosalynn and I believe in Habitat's integrity, effectiveness, and tremendous vision. With Habitat, we build more than houses. We build families, communities, and hope." ?Former U.S. President Jimmy Carter "I could have gone through my whole life bouncing back and forth on welfare. Habitat makes a difference, and allows people to be what God intended them to be instead of what their circumstances dictate." ?Missouri homeowner Terrie Robinson

"A handbook for hunting and punishing witches to assist the Inquisition and Church in exterminating undesirables. Mostly a compilation of superstition and folklore, the book was taken very seriously at the time it was written in the 15th century and became a kind of spiritual law book used by judges to determine the guilt of the accused"--From publisher description.

The Malleus Maleficarum or "Hammer of Witches" is the best known and the most important treatise on witchcraft. It endorses extermination of witches and for this purpose develops a detailed legal and theological theory. It was a bestseller, second only to the Bible in terms of sales for almost 200 years. It was written by the Catholic clergyman Heinrich Kramer and first published in 1487. The Malleus elevates sorcery to the criminal status of heresy and prescribes inquisitorial practices for secular courts in order to extirpate witches. The recommended procedures include torture to effectively obtain confessions and the death penalty as the only sure remedy against the evils of witchcraft. At that time, it was typical to burn heretics alive at the stake and the Malleus encouraged the same treatment of witches. The book had a strong influence on culture for several centuries. It was later used by royal courts during the Renaissance, and contributed to the increasingly brutal prosecution of witchcraft during the 16th and 17th centuries.
