wrongly executed by the state. Twenty-one of the murders represent those killed in the Birmingham Six pub bombings. The 2 Immoral Earnings refers to the case of Stephen Ward of Profumo fame. In a final section Ludovic Kennedy asks what lessons are to be learned and concludes: "As the theme of all my cases is police corruption and judicial complacency, I will be asked what the remedies are. The cause, I will say, of all miscarriages with which I have dealt is our antiquated [adversarial] system of criminal justice, which is an invitation to the police to commit perjury, which they frequently do (here and in the US which follows the same system). I think the inquisitorial system of some European countries is infinitely preferable."

The Illustrated Encyclopedia of Scotland is a comprehensive, illustrated reference guide to Scotland. It presents an overview of the country in a wide perspective: its varied landscapes, towns and their buildings, its past and present, and above all its people, their occupations and pastimes. This encyclopedia also provides an illustrated portrait of Scotland now and in the past, covering history, the arts, industry, science, commerce, medicine, sport, politics, religion, architecture and popular culture. The aim of this encyclopedia is to give a wide range of information in an accessible form. Many topics are given extended entries, such as the main cities, the clans, the Enlightenment, language, the law, parliament, golf and whisky. Entries are cross-referenced, and each topic has been researched and reviewed by experts in their field. For additional information there is a list of further reading, lists of Scottish festivals and societies, and maps indicating the changes to local government boundaries both in 1975 and in 1996.

Few things should go together better than psychology and law - and few things are getting together less successfully. Edited by four psychologists and a lawyer, and drawing on contributions from Europe, the USA and Australia, *Applying Psychology to Criminal Justice* argues that psychology should be applied more widely within the criminal justice system. Contributors develop the case for successfully applying psychology to justice by providing a rich range of applicable examples for development now and in the future. Readers are encouraged to challenge the limited ambition and imagination of psychology and law by examining how insights in areas such as offender cognition and decision-making under pressure might inform future investigation and analysis.

This work is a composite index of the complete runs of all mystery and detective fan magazines that have been published, through 1981. Added to it are indexes of many magazines of related nature. This includes magazines that are primarily oriented to boys' book collecting, the paperbacks, and the pulp magazine hero characters, since these all have a place in the mystery and detective genre.

Criminal disenfranchisement-the practice of restricting electoral rights following criminal conviction-is the only surviving electoral restriction of adult, mentally competent citizens in contemporary democracies. Despite the strong devotion to the principle of universal suffrage, criminal offenders are still routinely deprived of active and passive franchise, while the justifications for such limitations remain elusive and incoherent. In *Punishment and Citizenship*, Milena Tripkovic develops an empirical and normative

account of criminal disenfranchisement. Starting from historical precedents of such restrictions and examining the current policies of a number of European countries, Tripkovic argues that while criminal disenfranchisement is considered a form of punishment, it should instead be viewed as a citizenship sanction imposed when a citizen fails to perform their role as a member of a political community. In order to determine the justifications of disenfranchisement, Tripkovic explores various citizenship ideals and examines whether criminal offenders comply with the expectations that are posed before them. After developing a theoretical framework of citizenship duties, Tripkovic concludes that very few criminal offenders fail to satisfy fundamental citizenship conditions and exhaustive voting restrictions cannot ultimately be justified. A comprehensive assessment of criminal disenfranchisement, *Punishment and Citizenship* offers concrete policy suggestions to determine the limited circumstances under which electoral rights could justifiably be withheld from criminal offenders.
