American Sphinx: The Character of Thomas Jefferson by ...

American Sphinx: The Character of Thomas Jefferson. Joseph J. Ellis. National Bestseller For a man who insisted that life on the public stage was not what he had in mind, Thomas Jefferson certainly spent a great deal of time in the spotlight--and not only during his active political career. After 1809, his longed-for retirement was compromised by a steady stream of guests and tourists who made of his estate at Monticello a virtual hotel, as well as by more than one thousand letters per year, ...

American Sphinx: The Character of Thomas Jefferson by ...

In American Sphinx, Ellis sifts the facts shrewdly from the legends and the rumors, treading a path between vilification and hero worship in order to formulate a plausible portrait of the man who still today "hover[s] over the political scene like one of those dirigibles cruising above a crowded football stadium, flashing words of inspiration to both teams." For, at the grass roots, Jefferson ...

Offers a reassessment of the life, image, and career of Thomas Jefferson, examining his complex personality, controversies about the man and his beliefs, and his accomplishments

Following Thomas Jefferson from the drafting of the Declaration of Independence to his retirement in Monticello, Joseph J. Ellis unravels the contradictions of the Jeffersonian character. He gives us the slaveholding libertarian who was capable of decrying mescegenation while maintaining an intimate relationship with his slave, Sally Hemmings; the enemy of government power who exercised it audaciously as president; the visionary who remained curiously blind to the inconsistencies in his nature. American Sphinx is a marvel of scholarship, a delight to read, and an essential gloss on the Jeffersonian legacy.

Offers a reassessment of the life, image, and career of Thomas Jefferson, examining his complex personality, controversies about the man and his beliefs, and his accomplishments

Draws on the Washington papers from archives at the University of Virginia to chronicle George Washington's military career and presidential years, discussing his struggle to keep an emerging America united and other accomplishments.

The introduction, discussion questions, suggestions for further reading, and author biography that follow are intended to enhance your reading group's discussion of Joseph Ellis's *Founding Brothers: The Revolutionary Generation*. We hope they will enrich your experience of this Pulitzer Prize-winning study of the intertwined lives of the founders of the American republic--John Adams, Aaron Burr, Benjamin Franklin, Alexander Hamilton, Thomas Jefferson, James Madison, and George Washington.

The award-winning author of *Founding Brothers* and *The Quartet* now gives us a deeply insightful examination of the relevance of the views of George Washington, Thomas Jefferson, James Madison, and John Adams to some of the most divisive issues in America today. The story of history is a ceaseless conversation between past and present, and in *American Dialogue* Joseph J. Ellis focuses the conversation on the often-asked question "What would the Founding Fathers think?" He examines four of our most seminal historical figures through the prism of particular topics, using the perspective of the present to shed light on their views and, in turn, to make clear how their now centuries-old ideas illuminate the disturbing impasse of today's political conflicts. He discusses Jefferson and the issue of racism, Adams and the specter of economic inequality, Washington and American imperialism,

Madison and the doctrine of original intent. Through these juxtapositions--and in his hallmark dramatic and compelling narrative voice--Ellis illuminates the obstacles and pitfalls paralyzing contemporary discussions of these fundamentally important issues.

A distinctive portrait of the crescendo moment in American history from the Pulitzer-winning American historian, Joseph Ellis. The summer months of 1776 witnessed the most consequential events in the story of our country's founding. While the thirteen colonies came together and agreed to secede from the British Empire, the British were dispatching the largest armada ever to cross the Atlantic to crush the rebellion in the cradle. The Continental Congress and the Continental Army were forced to make decisions on the run, improvising as history congealed around them. In a brilliant and seamless narrative, Ellis meticulously examines the most influential figures in this propitious moment, including George Washington, John Adams, Thomas Jefferson, Benjamin Franklin, and Britain's Admiral Lord Richard and General William Howe. He weaves together the political and military experiences as two sides of a single story, and shows how events on one front influenced outcomes on the other. Revolutionary Summer tells an old story in a new way, with a freshness at once colorful and compelling.

Personal essays exploring identity, work, family, and community through the prism of race and black culture.

The Pulitzer Prize-winning author of *Founding Brothers* shares historical insights into America's post-Revolution efforts for independence, citing key debates over the creations of the Articles of Confederation and the Bill of Rights.
