This principle supports the retributivist view: an offence calls for punishment and its severity should be determined by the offence ...

In Ben Coes' latest, *Eye for an Eye*, Dewey Andreas faces the toughest odds of his life as one of China's most powerful men has decided to do whatever he must to take down Dewey—and inflicts a horrifying loss. When Dewey Andreas uncovers the identity of a mole embedded at a high level in Israel's Mossad, it triggers a larger, more dangerous plot. The mole was the most important asset of Chinese Intelligence, and Fao Bhang, head of China's Ministry of State Security (MSS), responds to the discovery and brutal elimination of the mole, by immediately placing a kill order on the man responsible—Dewey Andreas. Dewey is tracked to Argentina, where he is on vacation with his fiancée, Jessica Tanzer, a U.S. National Security Advisor. A top-level kill team is sent in quickly and quietly, but their attack fails to take out Dewey. The collateral damage, however, is both horrifying and deeply personal. With nothing left to lose, Andreas is determined to have his revenge. Once he learns who is probably behind the attack—and why they are after him—Dewey goes rogue, using all of his assets and skills to launch a counterattack. Andreas must now face the full

The death penalty issue has become the epitome of the unresolvable issue, the question which people answer on the basis of gut reactions rather than logical arguments. In the second edition of *An Eye for an Eye?* Stephen Nathanson evaluates arguments for and against the death penalty, and ultimately defends an abolitionist position to the controversial practice, including arguments that show how and why the death penalty is inconsistent with respect for life and a commitment to justice. A timely new postscript and an updated bibliography accompany the volume.

This book is a historical and philosophical meditation on paying back and buying back, that is, it is about retaliation and redemption. It takes the law of the talion - eye for an eye, tooth for a tooth - seriously. In its biblical formulation that law states the value of my eye in terms of your eye, the value of your teeth in terms of my teeth. Eyes and teeth become units of valuation. But the talion

doesn't stop there. It seems to demand that eyes, teeth, and lives are also to provide the means of payment. Bodies and body parts, it seems, have a just claim to being not just money, but the first and precisest of money substances. In its highly original way, the book offers a theory of justice, not an airy theory though. It is about getting even in a toughminded, unsentimental, but respectful way. And finds that much of what we take to be justice, honor, and respect for persons requires, at its core, measuring and measuring up.
