Effectively master various physiology, dissection, identification, and anatomic explorations in the laboratory setting with the Anatomy & Physiology Laboratory Manual and E-Labs, 9th Edition. The practical, full-color lab manual contains 55 different A&P lab exercises that cover labeling anatomy, dissecting anatomic models and fresh or preserved specimens, physiological experiments, computerized experiments, and more. The manual also includes safety tips, a comprehensive instruction and preparation guide for the laboratory, and tear-out worksheets for each of the 55 exercises. In addition, 15 e-Lab modules offer authentic 3D lab experiences online for virtual lab instruction. 15 interactive eLabs further your laboratory experience in the digital environment. Complete list of materials for each exercise offers a thorough checklist for planning and setting up laboratory activities. Over 250 illustrations depict proper procedures and common histology slides. Step-by-step guidance for dissection of anatomical models and fresh or preserved specimens, with accompanying illustrations, helps you become acclimated to the lab environment. Physiology experiments centering on functional processes of the human body offer immediate and exciting examples of physiological concepts. Easy-to-evaluate, tear-out lab reports contain checklists, drawing exercises, and questions that help you demonstrate your understanding of the labs they have participated in. Reader-friendly spiral binding allows for hands-free viewing in the lab setting. Labeling and coloring exercises provide opportunities to identify critical structures examined in the lab and lectures. Brief learning aids such as Hints, Landmark Characteristics, and Safety First! are found throughout the manual to help reinforce and apply knowledge of anatomy and function. Modern anatomical imaging techniques, such as MRIs, CTs, and ultrasonography, are introduced where appropriate. Boxed hints and safety tips provide you with special insights on handling specimens, using equipment, and managing lab activities. UPDATED! Fresh activities keep the manual current and ensure a strong connection with the new edition of the A&P textbook. NEW! Updated illustrations and design offer a fresh and upbeat look for the full-color design and learning objectives. NEW! Expanded and improved student resources on the Evolve companion website include a new version of the Body Spectrum electronic coloring book.
