Cincinnati Magazine taps into the DNA of the city, exploring shopping, dining, living, and culture and giving readers a ringside seat on the issues shaping the region.

Research on animal learning and cognition has so far mainly focused on a few prominent model species, including primates, corvids and dogs. For years, comparative psychologists and ethologists have been suggesting that more animal species should be considered in comparative cognitive science. The abundance and accessibility of livestock offer an opportunity, not merely to extend the comparative approach, but also to deepen our knowledge of the mental lives of farm animals. Such approaches also help to assess the needs of farm animals, in order to improve their welfare. In recent years, scientific interest in different aspects of farm animal psychology, including emotionality, personality and cognitive capacities, has been on the rise, proving that farm animals have sophisticated cognitive skills to comprehend and cope with their environment. As knowledge of how farm animals perceive and interact with their physical and social environments is crucial for animal welfare, the aim of this Research Topic is to promote investigations of farm animal cognitive capacities and their implications for animal welfare-related issues. We have therefore collected original research and review articles, as well as opinion and

perspective papers that are distributed among the two hosting magazines, *Frontiers in Veterinary Science* (section Animal Behavior and Welfare) and *Frontiers in Psychology* (section Comparative Psychology). The published articles present state-of-the-art research on farm animal learning and cognition, highlight future perspectives in this research area and pinpoint shortcomings and limitations in interpreting current findings. They offer new cross-disciplinary frameworks (e.g. links between affective states and cognition) and discuss the applied implementation of these findings (e.g. cognitive enrichment). These contributions will increase our understanding of the cognitive mechanisms that enable farm animals to effectively interact with their environment and pave the way for future cross-disciplinary endeavors.

Extensive studies have shown cognitive-behavioral therapy to be highly effective in treating anxiety disorders, improving patients' social functioning, job performance, and quality of life. Yet every CBT clinician faces some amount of client resistance, whether in the form of "This won't work", "I'm too depressed", or even "You can't make me!" *Avoiding Treatment Failures in the Anxiety Disorders* analyzes the challenges presented by non-compliance, and provides disorder- and population-specific guidance in addressing the impasses and removing the obstacles that derail therapy. Making use of extensive clinical expertise and current empirical findings, expert contributors offer cutting-edge understanding of the causes of treatment complications—and innovative strategies for their resolution—in key areas, including: The therapeutic alliance The full range of anxiety disorders (i.e., panic, PTSD, GAD) Comorbidity issues (i.e., depression, personality disorders, eating disorders, substance abuse, and chronic medical illness) Combined CBT/pharmacological treatment Ethnic, cultural, and religious factors Issues specific to children and adolescents. Both comprehensive, and accessible, *Avoiding Treatment Failures in the Anxiety Disorders* will be welcomed by new and seasoned clinicians alike. The window it opens onto this class of disorders, plus the insights into how and why this treatment works, will also be of interest to those involved in clinical research.

Essentials of Consumer Behavior offers an alternative to traditional textbooks for graduate students. Shorter than competing books, but no less rigorous, it includes unique material on vulnerable consumers and ethics. Balancing a strong academic foundation with a practical approach, Stephens emphasizes that consumer behavior does not simply equate to buyer behavior. She examines the thoughts, feelings, and behaviors that shape consumers' attitudes and motivations in relation to brands, products, and marketing messages. Providing a concise guide to the discipline, the author covers key themes such as vulnerable consumers, new technologies, and collaborative consumption. The book is supported by a rich companion website offering links to videos and podcasts, surveys, quizzes, further readings, and more. It will be a valuable text for any graduate student of consumer behavior or marketing, as well as any interested consumers.
