Teachers must be able to assess whether projects can be put on hold if the outcomes are not as impactful as others. Priorities are not as black and white as putting math and English first and getting to arts projects if time avails. This kind of thinking can lead to class burnout for both teachers and students.

Teachers, especially those in nursery and pre-primary schools, know that it takes specialized learning aids to help children learn how to identify objects, develop eye-hand and fine motor coordination, improve attention span, and learn to focus on the activity in which they are participating. The aim of BEE CLEVER Activity Books Keeping these important learning factors in mind, a pre-school educator and counsellor has created a series of simple and stimulating activity books. These help develop the skills a child needs, plus contribute to the further development of the child's 'writing readiness'. Pallavi Dalal - the creator of BEE CLEVER Activity Books - has spent over 25 years working with pre-school children. She says, "There has been much thought, care, understanding, laughter and joy that has gone into creating these books. I can only hope that they will bring children many 'magical moments' of learning, and spending time with each other in a happy and relaxed frame of mind." Two Important Factors While planning any activity for children, two important principles of learning are always uppermost in her mind: 1. "I see and I remember." 2. "I do and I understand." She has designed these books to develop differentiating and logical thinking skills in children and evaluate their interests in certain areas, without making them feel like they are being 'tested'!

How BEE CLEVER books are DIFFERENT - Objects illustrated are those a child is generally familiar with. - Instructions can be read to a child without having to simplify them. - Illustrations are bold and clear for the child to see and work comfortably. - Accurate use of grammar, punctuation and spelling. - Each book in the series explains the value of doing that specific activity. - Simple 'Do's and Don'ts' create a 'win-win' situation for the child. BEE CLEVER SERIES: - Colouring 1 - Colouring 2 - Join the Dots 1 - Join the Dots 2 Matching - Mazes 1 - Mazes 2 - Numbers 1 - Numbers 2 - Odd One Out - Opposites 1 - Opposites 2 - Pattern & Letter Writing 1 - Pattern & Letter Writing 2 - Phonics 1 - Phonics 2 - Shapes 1 - Shapes 2 - Story Sequence - What's Different? - What's Next? - What's Wrong? Illustrations by Pallavi Basu

Offers step-by-step instruction on how to enable an academically rigorous, comprehensive education for children from preschool through high school, outlining a classical educational model while providing book lists, ordering information, and Internet links.

Teaching English to speakers of other languages (TESOL) requires knowledge of content (grammar, vocabulary, pronunciation) and methods (lesson planning, classroom management). Many TESOL teacher training programs assume that trainees have sufficient content knowledge, and therefore focus on methodology. Unfortunately, the assumption of content knowledge is often a bad one. Many TESOL graduates enter the work force without a sufficient grounding in English fundamentals. *You Can Teach Grammar* is a self-contained TESOL grammar course book. It covers all the parts of speech and major sentence structures and provides self-practice quizzes to check comprehension. In addition, the book directly addresses common classroom problems associated with each grammar topic. In the classroom, knowledge of the grammar alone is insufficient. Imparting English grammar skills in memorable and meaningful ways can be tricky, particularly for new teachers. For this reason, *You Can Teach Grammar* includes a variety of teaching ideas for each grammar topic. *You Can Teach Grammar* is designed as both a course book and a general reference. Its logical layout and detailed indexing make it a useful resource for teachers in the field as well as for teachers-in-training.

*We've Got Words: A High School Student's Guide To The Parts of Speech & Public Speaking* is a practical learner's guide to the 8 Parts of Speech and Public Speaking, providing students with a short and concise manual to understanding the basic grammatical elements of reading and writing sentences. This workbook is the 6th in the series. It is designed for grades 9-12. The scope of this workbook covers Public Speaking and the 8 Parts of Speech using lyrics in Spoken Word and Rap as instructional examples for all 8 parts of speech. This book is based on a classroom assignment in an AP class at Jackson High School in 2013-14. Logan Taylor accepted the challenge and wrote a Lyrical Dissertation titled *We've Got Words*. In this rap Logan systematically identified the parts of speech while expositing their meaning and usage. Based on Logan's Rap, this workbook was created to help students understand English Grammar and thereby be prepared to read and write at Proficiency grade level.
