A new, feminist translation of *Beowulf* by the author of the much-buzzed-about novel *The Mere Wife*. Nearly twenty years after Seamus Heaney's translation of *Beowulf* and fifty years after the translation that continues to torment high-school students around the world there is a radical new verse translation of the epic poem by Maria Dahvana Headley, which brings to light elements that have never before been translated into English, recontextualizing the binary narrative of monsters and heroes into a tale in which the two categories often entwine, justice is rarely served, and dragons live among us. A man seeks to prove himself as a hero. A monster seeks silence in his territory. A warrior seeks to avenge her murdered son. A dragon ends it all. The familiar elements of the epic poem are seen with a novelist's eye toward gender, genre, and history—*Beowulf* has always been a tale of entitlement and encroachment, powerful men seeking to become more powerful, and one woman seeking justice for her child, but this version brings new context to an old story. While crafting her contemporary adaptation of *Beowulf*, Headley unearthed significant shifts lost over centuries of translation.

Literary scholar, professor, and poet J. Lesslie Hall is best known for his 1897 translation of the Old English epic poem "Beowulf."

Beowulf is the greatest surviving work of literature in Old English, unparalleled in its epic grandeur and scope. It tells the story of the heroic Beowulf and of his battles, first with the monster Grendel, who has laid waste to the great hall of the Danish king Hrothgar, then with Grendel's avenging mother, and finally with a dragon that threatens to devastate his homeland. Through its blend of myth and history, *Beowulf* vividly evokes a twilight world in which men and supernatural forces live side by side. And it celebrates the endurance of the human spirit in a transient world. "Alexander's translation is marked by a conviction that it is possible to be both ambitious and faithful [and] ...communicates the poem with a care which goes beyond fidelity-to-meaning and reaches fidelity of implication. May it go on ... to another half-million copies." - Tom Shippey, *Bulletin of the International Association of University Professors of English*

A modern translation of the Anglo-Saxon poem, attempts to portray the alliteration and rhythm of the original

A verse translation of the first great narrative poem in the English language that captures the feeling and tone of the original.

R.M. Liuzza's translation of *Beowulf*, first published by Broadview in 1999, has been widely praised for its accuracy and beauty. The facing-page translation is accompanied in this edition by genealogical charts, historical summaries, and a glossary of proper names. Historical appendices include related legends, stories, and religious writings from both Christian and Anglo-Saxon traditions. These texts help readers to see *Beowulf* as an exploration of the politics of kingship and the psychology of heroism, and as an early English meditation on the bridges and chasms between the pagan past and the Christian present. Appendices also include a generous sample of other modern translations of *Beowulf*, shedding light on the process of translating the poem. This new edition features an updated introduction and an expanded section of material on Christianity and paganism.

File Type PDF Beowulf In The Translation By Burton Raffel

Presents the prose translation of the Old English epic that Tolkien created as a young man, along with selections from lectures on the poem he gave later in life and a story and poetry he wrote in the style of folklore on the poem's themes.

A translation of the first epic poem in the English language

This new translation of 'Beowulf' captures the rhythm and movement of the original Old English poem while employing a fluid Modern English style and relatively simple vocabulary. The resulting text provides an approximation of the acoustic features -- and power -- of the original and is suitable for reading either silently or aloud. This edition also includes a substantial Introduction and translations of three shorter Old English poems that shed light on 'Beowulf'.
