In this thought-provoking and playful short story collection, David Foster Wallace nudges at the boundaries of fiction with inimitable wit and seductive intelligence. Wallace's stories present a world where the bizarre and the banal are interwoven and where hideous men appear in many guises. Among the stories are 'The Depressed Person,' a dazzling and blackly humorous portrayal of a woman's mental state; 'Adult World,' which reveals a woman's agonized consideration of her confusing sexual relationship with her husband; and 'Brief Interviews with Hideous Men,' a dark, hilarious series of imagined interviews with men on the subject of their relations with women. Wallace delights in leftfield observation, mining the absurd, the surprising, and the illuminating from every situation. This collection will enthrall DFW fans, and provides a perfect introduction for new readers.

This anthology is a compilation of Westerners' accounts of their visits to Korea, originally published in books or newspapers before the country opened its doors in the late nineteenth century. The opening of Korea made it possible to explore the country in detail and write detailed accounts. Prior impressions were garnered mostly from brief visits to remote islands along the coast. The accounts published here are mainly anecdotal, and contain many generalizations. However, the accumulated impressions of these early encounters surely influenced the perspectives of later travelers, and help explain the overwhelmingly negative image of Korea that Western governments harbored at the time. The book can serve as a useful resource for studying Korea's early interactions with the outside world, and will give readers an idea of the criteria by which Westerners judged the foreign "other."

Deriving from a conference organised by the Tavistock Marital Studies Institute, the present volume draws the main focus of its inquiry from a few fundamental questions. In its various brief encounters, and in disparate contexts, how effective can a psychoanalytic approach be when it addresses the parental/child or adult couple relationship? What specific quality of contact can be achieved in the relationship between client(s) and therapist in shorter-term work? This compilation of essays, written by experienced practitioners, engages directly and positively these, and other questions, demonstrating with clinical material the efficacious contribution of a psychoanalytic psychotherapy. In both the similarity and variety of responses to the complex issues explored the authors display a creative engagement and theoretical understanding that will be of great interest and stimulus to all professionals working in this field.

Provides an illustrated reference tool for young readers, enhanced with more than 3,200 images, a map of the universe, weights and measures, countries and their flags, and more.

Throughout the 19th and early 20th centuries, countless distinguished writers made the long and arduous voyage across the seas to Australia. They came to give lecture tours and make money, to sort out difficult children sent here to be out of the way; for health, for science, to escape demanding spouses back home, or simply to satisfy a sense of adventure. In 1890, for example, Robert Louis Stevenson and his wife Fanny arrived at Circular Quay after a dramatic sea voyage only to be refused entry at the Victoria, one of Sydney's most elegant hotels. Stevenson threw a tantrum, but was forced to go to a cheaper, less fussy establishment. Next day, the Victoria's manager, recognising the famous author from a picture in the paper, rushed to find Stevenson and beg him to return. He did not. In Brief Encounters, renowned author and speaker Susannah Fullerton examines a diverse array of writers including Charles Darwin, Rudyard Kipling, Stevenson, Anthony Trollope, Mark Twain, Arthur Conan Doyle, DH Lawrence, Joseph Conrad, HG Wells, Agatha Christie and Jack London to discover what they did when they got here, what their opinion was of Australia and Australians, how the public and media reacted to them, and how their future works were shaped or influenced by this country.

Cardinals, directors, dissidents, dons, judges, novelists, philosophers, prime ministers, scientists, world statesmen. . . Throughout his long and distinguished career, Sir Anthony Kenny has encountered some of the most notable and influential leaders of the post-war world. In these brilliantly vivid vignettes Kenny offers telling and often unexpected insights into the achievements, flaws and foibles of sixty public figures - past and present - each of whom has contributed in decisive ways to our political, spiritual and cultural heritage.
