Do you ever wonder what is happening inside your brain when you feel anxious, panicked, and worried? In *Rewire Your Anxious Brain*, psychologist Catherine

Online Library C

Programming Lpc 1768

Pittman and author Elizabeth Karle offer a unique, evidence-based solution to overcoming anxiety based in cutting-edge neuroscience and research. In the book, you will learn how the amygdala and cortex (both important parts of the brain) are essential players in the neuropsychology of anxiety. The

Online Library C

Programming Lpc 1768

Emotion amygdala acts as a primal response, and oftentimes, when this part of the brain processes fear, you may not even understand why you are afraid. By comparison, the cortex is the center of “worry.” That is, obsessing, ruminating, and dwelling on things that may or may not happen. In the book, Pittman and

Online Library C

Programming Lpc 1768

Karle make it simple by offering specific examples of how to manage fear by tapping into both of these pathways in the brain. As you read, you ' ll gain a greater understanding how anxiety is created in the brain, and as a result, you will feel empowered and motivated to overcome it. The brain is a powerful tool, and the more

Online Library C

Programming Lpc 1768

you work to change the way you respond to fear, the more resilient you will become. Using the practical self-assessments and proven-effective techniques in this book, you will learn to literally “rewire” the brain processes that lie at the root of your fears.

The purpose of this Special Issue is to provide a thorough and up-to-date presentation of research investigating the impact of coffee and/or caffeine intake on various health outcomes. We welcome the

Online Library C

Programming Lpc 1768

Submission of original research articles and/or systematic Reviews/meta-analyses focusing on several aspects of coffee/caffeine intake in relation to human health. Areas of interest include, but are not limited to, the following topics: -
Human clinical trials of coffee or caffeine use in relation to disease or intermediate

Online Library C

Programming Lpc 1768

phenotypes. - Epidemiological studies of habitual coffee or caffeine intake in relation to human health, among the general public, as well as, among special populations (i.e., children, pregnant women, diabetics, cancer patients, hypertensives, etc.) - Mechanisms of action of nutrients and other bioactive

Online Library C

Programming Lpc 1768

components of coffee/caffeine. - Studies integrating genetic or physiological markers of coffee/caffeine intake to investigations of coffee and health.

Our food experiences can be significantly influenced by both intrinsic and extrinsic multisensory information. Therefore, it is

Online Library C

Programming Lpc 1768

Crucial to understand and apply the principles that govern the systematic connections that exist between the senses in the context of Human-Food Interaction (HFI). In our Research Topic, namely Multisensory Human-Food Interaction (MHFI), several studies that consider such connections in the context of HFI are

Online Library C

Programming Lpc 1768

presented. We also have contributions that focus on multisensory technologies that can be used to share and reproduce specific HFIs. This eBook, which resulted from the Research Topic, presents some of the most recent developments in the field of MHFI. In particular, it consists of two main sections and corresponding articles.

Online Library C

Programming Lpc 1768

The eBook begins with the Editorial, which provides an overview of MHFI. Then, it includes six articles that relate to principles in MHFI and three on technologies in MHFI. We hope that the different contributions featured here will support future developments in MHFI research.
