main objectives for text revisions: to develop precise, readable materials for students that clearly define and demonstrate concepts and rules of calculus; and to design comprehensive teaching resources for instructors that employ proven pedagogical techniques and save time. The Larson/Edwards Calculus program offers a solution to address the needs of any calculus course and any level of calculus student. Every edition from the first to the sixth of **CALCULUS: EARLY TRANSCENDENTAL FUNCTIONS** has made the mastery of traditional calculus skills a priority, while embracing the best features of new technology and, when appropriate, calculus reform ideas. Larson's PRECALCULUS HYBRID, Ninth Edition, delivers the same sound, consistently structured explanations and exercises of mathematical concepts as his market-leading hardcover text, PRECALCULUS, Ninth Edition, combined with a briefer paperback format. The HYBRID demonstrates Larson's commitment to revolutionizing the way instructors teach and students learn material by moving all the end-of-section exercises from the text online as well as incorporating more real-world applications, ongoing review, and innovative technology. "How Do You See It?" exercises give students practice applying the concepts, and new "Summarize" features, "Checkpoint" problems, and a Companion Website reinforce understanding of the skill sets to help students better prepare for tests.
