Changing English : David Graddol : 9780415376792

David Graddol, who died in March aged 66, was a one-man think tank who changed the way the world sees the English language and the way the English Language industry sees the world. Always a polymath, he graduated in 1975 from the University of York with a BA in Language and Linguistics, and then completed a second BA in Sociology from the same university in 1983.

Focuses on the radical changes that have taken place in the structure of English over a millennium and a half, detailing the influences of migration, colonialism and many other historical, social and cultural phenomena. This work introduces many key debates relating to the English language, illustrated by specific examples of data in context.

In this provocative interpretation of the history of English, the contributors emphasise the diversity of English throughout its history and the changing social meanings of different varieties of English.

This fully updated edition of Redesigning English explores the innovative uses of English from early manuscripts to post-colonial literature, creative writing and developments in new media. Focusing on how English has, and continues to evolve through its global status, there is a strong emphasis on the visual forms of language and communication, and on issues of identity and politics. New chapters for this edition include; what makes English into Art? A tongue for sighing, English manuscripts: the emergence of a visual identity, English in a globalized world.

David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

Routledge English Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in the series offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries, and key readings – all in the same volume. The innovative and flexible ' two-dimensional ' structure is built around four sections – introduction, development, exploration, and extension – which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained. Global Englishes, Third Edition, previously published as World Englishes, has been comprehensively revised and updated and provides an introduction to the subject that is both accessible and comprehensive. Key features of this best-selling textbook include: coverage of the major historical, linguistic, and sociopolitical developments in the English language from the start of the seventeenth century to the present day exploration of the current debates in global Englishes, relating to its uses as mother tongue in the US, UK, Antipodes, and post-colonial language in Africa, South and Southeast Asia, and lingua franca across the rest of the globe, with a new and particularly strong emphasis on China a range of texts, data and examples draw from emails, tweets and newspapers such as The New York Times, China Daily and The Straits Times readings from key scholars including Alastair Pennycook, Henry G. Widdowson and Lesley Milroy activities that engage the reader by inviting them to draw on their own experience and consider their orientation to the particular topic in hand. Global Englishes, Third Edition provides a dynamic and engaging introduction to this fascinating topic and is essential reading for all students studying global Englishes, English as a lingua franca, and the spread of English in the world today.

Routledge English Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in the series offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries and key readings – all in the same volume. The innovative and flexible ' two-dimensional ' structure is built around four sections – introduction, development, exploration and extension – which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained. This revised second edition of History of English includes: a comprehensive introduction to the history of English covering the origins of English, the change from Old to Middle English, and the influence of other languages on English; increased coverage of key issues, such as the standardisation of English; a wider range of activities, plus answers to exercises; new readings of well-known authors such as Manfred Krug, Colette Moore, Merja Stenroos and David Crystal; a timeline of important external events in the history of English. Structured to reflect the chronological development of the English language, History of English describes and explains the changes in the language over a span of 1,500 years, covering all aspects from phonology and grammar, to register and discourse. In doing so, it incorporates examples from a wide variety of texts and provides an interactive and structured textbook that will be essential reading for all students of English language and linguistics.

In this book the authors examine how language has adapted to the rapid changes in communication technology. It is especially timely in the light of the internet and its effect upon human interaction.
