This volume provides a comprehensive overview of Nathaniel Hawthorne and demonstrates why he continues to be a critically significant figure in American literature. The first section focuses on Hawthorne's interest in and knowledge of past (Puritan and colonial) and contemporary nineteenth-century history (women's, African American, Native American) as the inspiration for his writings and the source of his literary success. The second section explores his fascination with social history and popular culture by examining topics as mesmerism, utopian life styles, theatrical performances, and artistic innovations. The third section looks at how Hawthorne succeeded and excelled in the literary marketplace, as an author of children's literature, literary sketches, and historical romances. In the fourth section, Hawthorne's literary precursors, peers, colleagues, and successors are analyzed. In the final section, Hawthorne's attachment to family, nature, and home is examined as the source of creative inspiration and philosophical questing.

Beginning its life as the sensational entertainment of the eighteenth century, the novel has become the major literary genre of modern times. Drawing on hundreds of examples of famous novels from all over the world, Marina MacKay explores the essential aspects of the novel and its history: where novels came from and why we read them; how we think about their styles and techniques, their people, plots, places, and politics. Between the main chapters are longer readings of individual works, from Don Quixote to Midnight's Children. A glossary of key terms and a guide to further reading are included, making this an ideal accompaniment to introductory courses on the novel.

There is a certain church, in the city of New York which I have always regarded with peculiar interest on account of a marriage there solemnized under very singular circumstances in my grandmother's girlhood. That venerable lady chanced to be a spectator of the scene, and ever after made it her favorite narrative. Whether the edifice now standing on the same site be the identical one to which she referred I am not antiquarian enough to know, nor would it be worth while to correct myself, perhaps, of an agreeable error by reading the date of its erection on the tablet over the door. It is a stately church surrounded by an enclosure of the loveliest green, within which appear urns, pillars, obelisks, and other forms of monumental marble, the tributes of private affection or more splendid memorials of historic dust. With such a place, though the tumult of the city rolls beneath its tower, one would be willing to connect some legendary interest.

And who are all the sad people in striped pyjamas on the other side of the fence? The grown-ups won't explain so Bruno decides there is only one thing for it - he will have to explore this place alone. What he discovers is a new friend. A boy with the very same birthday. A boy in striped pyjamas. But why can't they ever play together? BACKSTORY: Read an interview with the author JOHN BOYNE and learn all about the Second World War in Germany.

The Real Thing Henry James - "The Real Thing" is a short story by Henry James, first syndicated by S. S. McClure in multiple American newspapers and then published in the British publication Black and White in April 1892 and the following year as the title story in the collection, The Real Thing and Other Stories published by Macmillan. This story, often read as a parable, plays with the reality-illusion dichotomy that fascinated James, especially in the later stages of his career. For the illustrator who narrates the story, the genuine article proves all too useless for his commercial purposes. The story portrays the unfortunate victims of a society in which reality and representation are closely intertwined in ways that make art a difficult project to disentangle the two.

First published in the year 1842, the present book 'The Masque of the Red Death' by Edgar Allan Poe is a gothic short story that follows Prince Prospero's attempts to avoid a dangerous plague, known as the Red Death, by hiding in his abbey.
