A Wrinkle in Time is the winner of the 1963 Newbery Medd. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.

Comparisons, Connections, & Change-contexts for the particulars Ways of the World is the textbook preferred by AP World History teachers and students across North America. Like the AP course it supports, Ways of the World focuses on significant historical trends, themes, and developments in world history. Author Robert W. Strayer provides a thoughtful and insightful synthesis that helps students see the big picture. Each chapter then culminates with collections of primary sources (written and visual) organized around a particular theme, issue, or question, thus allowing students to consider the evidence the way historians do. The second edition includes a wealth of supporting resources and supplements for the AP course, including an AP Skills Primer and AP Chapter Wrap-Ups, and rolls out Bedford/St. Martin's new digital history tools, including LearningCurve, an adaptive quizzing engine that garners over a 90% student satisfaction rate, and LaunchPad, the all new interactive e-book and course space that puts high quality easy-to-use assessment at your fingertips. Featuring video, additional primary sources, a wealth of adaptive and summative quizzing, and more, LaunchPad cements student understanding of the text while helping them make progress toward learning outcomes. It's the best content joined up with the best technology.

Golding ’ s iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

#1 NEW YORK TIMES BESTSELLER • " The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly. " —Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE " MOST INFLUENTIAL " (CNN), " DEFINING " (LITHUB), AND " BEST " (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE ’ S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine. The first " immortal " human cells grown in culture, which are still alive today, though she has been dead for more than sixty years, HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb ’ s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta ’ s family did not learn of her " immortality " until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta ’ s daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn ’ t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, The Immortal Life of Henrietta Lacks captures the beauty and drama of scientific discovery, as well as its human consequences.

#1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University " Extraordinary ... an act of courage and self-invention. " —The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA ’ S FAVORITE BOOKS OF THE YEAR • BILL GATES ’ S HOLIDAY READING LIST • FINALIST: National Book Critics Circle ’ s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara ’ s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she ’ d traveled too far, if there was still a way home. " Beautiful and propulsive ... Despite the singularity of [Westover ’ s] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?
