in student learning and success, Sandra McGuire here presents these "secrets" direct to students. Her message is that "Any student can use simple, straightforward strategies to start making A's in their courses and enjoy a lifetime of deep, effective learning."

Beginning with

Bookmark File PDF Chemistry

explaining how expectations about learning, and the study efforts required, differ between college and secondary school, the author introduces her readers, through the concept of metacognition, to the importance and powerful consequences of understanding themselves as learners.

Bookmark File PDF Chemistry

This framework and the recommended strategies that support it are useful for anyone moving on to a more advanced stage of education, so this book also has an intended audience of students preparing to go to high school, graduate school, or professional school. In a conversational tone, and liberally illustrated by

Bookmark File PDF Chemistry

anecdotes of past students, the author combines introducing readers to concepts like Bloom's Taxonomy (to illuminate the difference between studying and learning), fixed and growth mindsets, as well as to what brain science has to tell us about rest, nutrition and exercise, together with such highly specific

Bookmark File PDF Chemistry

learning strategies as
how to read a textbook,
manage their time and
take tests. With
engaging exercises and
thought-provoking
reflections, this book is
an ideal motivational
and practical text for
study skills and first
year experience courses.
