Designed to help all students to learn chemistry, Living by Chemistry is a full-year high school

Read Book

Chemistry

Curriculum that

incorporates science
practices with a

guided-inquiry

approach. Students of

all levels will gain a

deep understanding

of chemistry with this

program. With Living

by Chemistry,

students learn

chemistry in the same

way that chemists

work by asking

Read Book

Chemistry

questions, collecting evidence, and thinking like scientists.

Living by Chemistry is

the product of a

decade of research

and development in

high school

classrooms, focusing

on optimizing student

understanding of

chemical principles.

Author Angelica Stacy

assisted in the

Read Book

Chemistry

development of the NGSS standards and served on the AP Chemistry redesign committee. She designed Living by Chemistry as an introduction for students who will take AP Chemistry or additional college classes. The curriculum was developed with the

Read Book

Chemistry

belief that science is best learned through first-hand experience and discussion with peers. Guided inquiry allows students to actively participate in, and become adept at, scientific processes and communication. These skills are vital to a students further success in science as well as beneficial to

Read Book

Chemistry

other pursuits. Formal definitions and formulas are frequently introduced after students have explored, scrutinized, and developed a concept, providing more effective instruction. LBCs innovative curriculum offers much more than traditional programs. To help

Read Book

Chemistry

engage students of all levels, the curriculum provides a variety of learning experiences through activities, discussions, games, demos, lectures, labs, and individual work.

Designed to help all students to learn real chemistry, Living By Chemistry is a full-year high school

Read Book

Chemistry

curriculum that aligns with the new Next Generation Science Standards (NGSS)

and the most rigorous of state standards.

Incorporating science practices with a guided-inquiry

approach, students ask questions, collect evidence, and think like scientists when learning with Living By
