Child prostitution in Thailand is a controversial topic, and children who are a part of this trade are being compensated by various laws. An act passed in 1996 states that "it is prohibited to engage in sexual intercourse or sexual acts in a 'prostitution establishment' with a person under 18 years of age, regardless of consent".

Child prostitution in Thailand - Wikipedia

Child labour of this kind is considered a social evil. The problem of child labour is a multi-dimensional one as the children from a large segment of the total population. Child prostitution involving both boys and girls is very common today but female child prostitution is more common than male child prostitution.

This book aims to document and analyse the enduring involvement of children in the commercial sex trade in twentieth-century England. It uncovers new evidence to indicate the extent of under-age prostitution over this period, a much-neglected subject despite the increased visibility of children more generally. The authors argue that child prostitution needs to be understood within a broader context of child abuse, and that this provides one of the clearest manifestations of the way in which 'deviant groups' can be conceived of as both victims and threats. The picture of child prostitution which emerges is one of exclusion from mainstream society and the law, and remoteness from the agencies set up to help young people in trouble, which were often reluctant to accept the realities of child prostitution. The evidence provided in this book indicates that the circumstances which have led young people into prostitution over the last hundred years amount, at worst, to physical or psychological abuse or neglect, and at best as the result of limited choice.

What can we learn from the tragedy of these exploited young people? In Thailand, a thriving sex industry makes its money exploiting the young. Some children are coerced into prostitution and some have been sold into sexual slavery by their own families, but just as tragically there is no shortage of young girls (and boys) willing to work as prostitutes. Child Prostitution in Thailand: Listening to Rahab searches for the reasons why. This uniquely insightful book looks into the lives--and even more importantly, listens to the words--of ten Thai prostitutes. Child Prostitution in Thailand is about what we can learn from them--who they are, what they go through, and why. In their own words, the young prostitutes you'll meet in this book Thailand discuss what brought them into this life. Some have come from a tragic home

situation, but not all are impoverished, orphaned, or abused. Nevertheless, they have entered into a dangerous and degrading lifestyle that often leads to violence, sickness, and early death. Of these ten prostitutes, one has already passed away and four more are dying with AIDS. This remarkable volume will help you to understand: how Thailand's child prostitution industry developed the impact upon girls and young women of Thailand's evolution from an agriculturally based economy to an industrial one changing forms of child prostitution who the customers are the role of tourism and its impact on child prostitution in Thailand how poverty, poor education, a sexually focused mass media, lack of religious emphasis, disability, and the lack of a clear policy on child prostitution help the sex industry to thrive This book also explores the details of child prostitution in Thailand--for instance, in open-air "restaurants" and "pubs" in Chiang Mai, your young waitress may double as a sex worker--and her provocative "uniform" represents a dress code enforced by the establishment's owner. A "café" is another kind of sex service disguised as (and functioning as) a bar/restaurant. Here, young girls working ten- and eleven-hour shifts in short skirts must wear price tags pinned to their shirts and may have to service five to ten clients per night. The head of the U.S. State Department's office for international women's issues estimates that traffickers bring 50,000 women and children into the United States illegally each year. The lessons Listening to Rahab teaches can help us to better understand the situation here at home as well as overseas. A helpful appendix assessing incidents of child prostitution around the globe bring the information even more clearly into focus.

Excerpt: She Has a Name is a play about human trafficking written by Andrew Kooman in 2009 as a single act and expanded to full length in 2010. It is about the trafficking of children into sexual slavery and was inspired by the deaths of 54 people in the Ranong human-trafficking incident. Kooman had previously published literature, but this was his first full-length play. The stage premiere of She Has a Name was directed by Stephen Waldschmidt at the EPCOR Centre for the Performing Arts in Calgary, Alberta in February 2011. Performances ran from February 23 until March 12 in both Calgary and Red Deer, all of which sold out. From May to October 2012, She Has a Name toured across Canada. In conjunction with the tour, A Better World raised money to help women and children who had been trafficked in Thailand as part of the country's prostitution industry. After the Saturday matinee in each city, there was a panel discussion to raise awareness about human trafficking. Five actors portray ten characters. The two main characters are Jason, a young Canadian lawyer; and Number 18, a young female prostitute who claims to be fifteen years old and has been a prostitute for six years. The drama centers around Jason's infiltration of a...

Child sex trafficking is defined as the recruitment, harboring, transportation, or obtaining of a person for the purpose of commercial sex act that is induced by force, fraud, or coercion, or in which the person induced to perform such an act has not attained eighteen years of age. Based on that definition, there is an alarming number of children that are being sexually enslaved. This paper specifically focuses on child sex trafficking or child prostitution. It presents a detailed analysis of the extent of child prostitution worldwide, discusses the long-term effects of child prostitution, analyzes the adequacy of the Church's response, and proposes solutions for the eradication of child sex trafficking. The purpose of this study is to bring light to a problem that is affecting a great number of children. It argues that child prostitution is extremely pervasive, and permeates every fiber of society, leaving no regions untouched. Trafficking is present in all the habitable continents. In the US, trafficking currently exists in all fifty states, Washington D.C., and the territories. Sex trafficking is currently the most rapidly expanding form of global criminal activity, and is the second most lucrative crime, second only to narcotics. Children are specifically being targeted, and there is a strong demand for young virgins, which has been fueled by the child sex tourism. Consequently, younger and younger children are being exploited. This study also shows that the Church has largely neglected its responsibility, and has not properly responded to the problem of child sex trafficking. The Church largely uses its resources on itself, and allocates very little to what should have been its primary mission. Whatever the reason for the inaction, whether it is because of conflict between proclamation and social action, the Church has a mandate to show compassion and to liberate those that are being held captive, which include the victims of child sex trafficking.

Given away by her mother at five months old, raped on the day of her first communion at age seven - when Celine Roberts was told 'No one wants you', she believed it. Illegitimate and unwanted, Celine was forced by her foster mother into prostitution. Her bones were broken, her nose was crushed and she ate candle wax to stay alive. Celine was finally rescued and sent to an industrial school, where she picked up the pieces of her shattered life. She also began the search for her parents. But what she found gave her battered survival instincts the hardest knock of all ... Full of the most heartbreaking tragedy but ultimately survival and hope, No One Wants You is the remarkably honest and compelling memoir of a woman triumphing over her brutal past.

This candid book reveals the enormity of the commercial sex-for-sale industry in the modern era. * Provides factual information regarding a topic that is of great interest to general readers in light of recent prostitution-related scandals, prostitution stings, and serial killers of prostitutes * Includes a complete bibliography of sources used in researching the commercial sex trade industry and sexual exploitation of women and children

Child prostitution became one of the key concerns of the international community in the 1990s. World congresses were held, international and national laws were changed and concern over "commercially sexually exploited children" rose dramatically. Rarely, however, were the children who worked as prostitutes consulted or questioned in this process, and the voices of these children brought into focus. This book is the first to address the children directly, to examine their daily lives, their motivations and their perceptions of what they do. Based on 15 months of fieldwork in a Thai tourist community that survived through child prostitution, this book draws on anthropological theories on childhood and kinship to contextualize the experiences of this group of Thai child prostitutes and to contrast these with the stereotypes held of them by those outside their community.

According to reports of the World Health Organization, the prostitution of women and children is increasing dramatically throughout the world. The problem is particularly acute in the lower socioeconomic sectors of the population, including teen runaways, drug addicts, and victims of abuse. This survey focuses first on defining prostitution and then on the motivations of those who became prostitutes. In Part II the overall scope of the problem is examined, along with the various subcultures (e.g., street walkers and call girls) and the prevalence of drugs, crime and victimization. Part III covers teenage prostitution and the issues of child sexual abuse. Part IV details other dimensions of the sex trade industry, such as pornography, male prostitutes, customers, laws, and the effects of decriminalization and legalization. Female prostitution outside the United States is discussed in Part V.
