These guidelines have been approved by the four organizations that make up the Cooperating Parties for the ICD-10-CM: the American Hospital Association (AHA), the American Health Information

# Access Free Coding

## Management

Association (AHIMA), CMS, and NCHS. These guidelines are a set of rules that have been developed to accompany and complement the official conventions and instructions provided within the ICD-10-CM itself. The instructions and conventions of the classification take

Access Free

Coding

precedence over

guidelines. These

guidelines are based on

the coding and

sequencing instructions

in the Tabular List and

Alphabetic Index of

ICD-10-CM, but

provide additional

instruction. Adherence

to these guidelines when

assigning ICD-10-CM

diagnosis codes is

required under the

# Access Free Coding

Health Insurance

Portability and

Accountability Act

(HIPAA). The diagnosis

codes (Tabular List and

Alphabetic Index) have

been adopted under

HIPAA for all

healthcare settings. A

joint effort between the

healthcare provider and

the coder is essential to

achieve complete and

accurate documentation,

# Access Free Coding

code assignment, and reporting of diagnoses and procedures. These guidelines have been developed to assist both the healthcare provider and the coder in identifying those diagnoses that are to be reported. The importance of consistent, complete documentation in the medical record cannot

# Access Free Coding

be overemphasized.

Without such documentation accurate coding cannot be achieved. The entire record should be reviewed to determine the specific reason for the encounter and the conditions treated.

The 2001 CPT  
Professional comes with  
all 2001 code
