## **Core State Standards Pacing**

These pacing guides are to serve as a guide to what you student is learning in the classroom at any point throughout the year. The pacing guides for Grade K-8 have been revised to align with the new Common Core State Standards (CCSS) for English language arts and math. Those that have been aligned to CCSS are in a "draft" format this academic year so our teachers and staff can add features, as well as work out any bugs that are associated with implementing the new pacing guides to Common Core.

Using the Common Core State Standards for Mathematics With Gifted and Advanced Learners provides teachers and administrators examples and strategies to implement the new

## Online Library Common Core State Standards Pacing Guide 2nd Edition

Common Core State Standards (CCSS) with advanced learners at all stages of development in K-12 schools. The book describes—and demonstrates with specific examples from the CCSS—what effective differentiated activities in mathematics look like for top learners. It shares how educators can provide rigor within the new standards to allow students to demonstrate higher level thinking, reasoning, problem solving, passion, and inventiveness in mathematics. By doing so, students will develop the skills, habits of mind, and attitudes toward learning needed to reach high levels of competency and creative production in mathematics fields.

Historically, teachers have exercised considerable autonomy in the day-to-day learning that occurs in their classrooms.

## Online Library Common Core State Standards Pacing Guide 2nd Edition

Now, it is growing increasingly rare for a teacher to experience this type of professional freedom. In response to high-stakes testing, national and state academic content standards, and most recently the common core standards, pacing guides are one of the more recent devices schools are using to implement and monitor curriculum. The purpose of this research project is to investigate teacher opinion toward these pacing guides. An online survey called the Pacing Guide Survey was delivered to secondary regular and special education teachers in core subject areas of mathematics, science, social studies, and language arts. The teachers were asked about whether or not they use pacing guides, their attitude and comfort level in using pacing guides, as well as: Information concerning the population of their high school,

## Online Library Common Core State Standards Pacing Guide 2nd Edition

such as demographics, enrollment, and single or multiple high schools; Building level factors, such as professional development initiatives, methods of curriculum monitoring, and pacing guide development and revisions processes; teacher factors, such as years teaching, years using pacing guides, confidence in content area, and educational background. Administrators were also interviewed to form a complete picture of pacing guide development and implementation in the secondary education environment. Quantitative data were analyzed using bivariate Spearman's rank order correlation and qualitative data were analyzed using a combination of thematic data analysis and quasi-statistical methods. Recommendations based on the data collected are: Teachers should be provided with the flexibility

## Online Library Common Core State Standards Pacing Guide 2nd Edition

to address student needs in the classroom. Teacher input into pacing guide development, implementation, and revision process is necessary to ensure that student needs are addressed. Team autonomy is key and teacher teams need to be provided with the necessary support structure to provide meaningful learning experiences for their students.
