The Project Management Vocabulary Workbook is an awesome tool to use before a course of study as it will help you develop a strong working Insider's Language before you even begin your review. Learn the Secret to Success! After nearly 20 years of teaching Lewis Morris discovered a startling fact: Most students didn't struggle with the subject, they struggled with the language. It was never about brains or ability. His students simply didn't have the knowledge of the specific language needed to succeed. Through experimentation and research, he discovered that for any subject there was a list of essential words, that, when mastered, unlocked a student's ability to progress in the subject. Lewis called this set of vocabulary the "Insider's Words". When he applied these "Insider's Words" the results were incredible. His students began to learn with ease. He was on his way to developing the landmark series of workbooks and applications to teach this "Insider's Language" to students around the world.

With the decree-laws adopted under state of emergency declared following the coup attempt on 15 July 2016, more than 125 thousand people have been dismissed their professions and more than three thousand organizations and institution have been closed down. As a grounds for the measures adopted for natural and real persons, it is shown that those who are considered to "have relation", "connection" or "contact" with terrorist organizations or structure/entities, organizations or groups established as engaging in activities against the national security of the State by the National Security Council, which has no judicial duty, whose resolutions are of advisory nature for the Council of Ministers which issues emergency decree-laws However, the concepts of connection and contact mentioned in the said justification are of "intelligence" nature concepts which were not previously available in our law and which have no

meaning or equivalent in terms of criminal and disciplinary law. In other words, without the need for any court decision, with the decision of "an administrative board", structures, groups and formations which were not mentioned in the Decree-Laws have been considered to be a "terrorist organization", and the persons who are alleged to have connection and contact with these organizations have been deemed to be "a member of a terrorist organization". But this admission is contrary to the principle that "the administration cannot impose criminal offences through regulatory procedures", which is set forth in Article 2/2 of the Turkish Penal Code and "presumption of innocence" Furthermore, persons in question have not been notified which terrorist organization they are a member with, their defence statement has not been obtained in spite of the grave allegation against them, and they have been dismissed their profession by putting their names in the lists that were not clear by whom and according to which criteria they are prepared. Foregoing emergency procedures and measures are required to be assessed in terms of fundamental rights and freedom as well as universal law criterion, in order to meet this need, the study herein touches upon the law practices in Turkey administered by the state of emergency. The topics covered in the study were examined in six chapters. In the first chapter, it is touched upon the
