#1 New York Times bestseller With a new afterword Now a Major Motion Picture Starring Steve Carell * Timothée Chalamet * Maura Tierney * and Amy Ryan ¶A brilliant, harrowing, heartbreaking, fascinating story, full of beautiful moments and hard-won wisdom. This book will save a lot of lives and heal a lot of hearts.¶¶ Anne Lamott ¶¶When one of us tells the truth, he makes it easier for all of us to open our hearts to our own pain and that of others.¶ That's ultimately what Beautiful Boy is about: truth and healing.¶¶ Mary Pipher, author of Reviving Ophelia What had happened to my beautiful boy? To our family? What did I do wrong? Those are the wrenching questions that haunted David Sheff's journey through his son Nic's addiction to drugs and tentative steps toward recovery. Before Nic became addicted to crystal meth, he was a charming boy, joyous and funny, a varsity athlete and honor student adored by his two younger siblings. After meth, he was a trembling wraith who lied, stole, and lived on the streets. David Sheff traces the first warning signs: the denial, the three a.m. phone calls¶is it Nic? the police? the hospital? His preoccupation with Nic became an addiction in itself. But as a journalist, he instinctively researched every treatment that might save his son. And he refused to give up on Nic. ¶Filled with compelling anecdotes and important insights . . . An eye-opening memoir.¶¶ Washington Post

KLR650 (2008-2012),

The Huautla in Mexico is the deepest cave in the Western Hemisphere, possibly the world. Shafts reach skyscraper-depths, caverns are stadium-sized, and sudden floods can drown divers in an instant. With a two-decade obsession, William Stone and his 44-member team entered the sinkhole at Sotano de San Augustin. The first camp settled 2,328 feet below ground in a cavern where headlamps couldn't even illuminate the walls and ceiling. The second camp teetered precariously above an underground canyon where two subterranean rivers collided. But beyond that lay the unknown territory -- a flooded corridor that had blocked all previous comers, claimed a diver's life, and drove the rest of the team back. Except for William Stone and Barbara am Ende, who forged on for 18 more days, with no hope of rescue, to set the record for the deepest cave dive in the Western Hemisphere.
