This brand-new devotional by Charles Stanley invites readers to step into the presence of an eternal God who is bidding them to find serenity and security in Him. A young girl in Haiti is eager to learn how to carry a basket to market in an exuberant picture book with universal appeal. "To carry the panye, we move gracefully, even under the weight of the sun and the moon." In the hills above Port-au-Prince, a young girl named Fallon wants more than anything to carry a large woven basket to the market, just like her Manman. As she watches her mother wrap her hair in a mouchwa, Fallon tries to twist her own braids into a scarf and balance the empty panye atop her head, but realizes it's much harder than she thought. BOOM! Is she ready after all? Lyrical and inspiring, with vibrant illustrations highlighting the beauty of Haiti, My Day with the Panye is a story of family legacy, cultural tradition, and hope for the future. Readers who are curious about the art of carrying a panye will find more about this ancient and global practice in an author's note at the end.

Charles Cushman (1896-1972) photographed a disappearing world in living color. Cushman's midcentury America--a place normally seen only through a scrim of gray--reveals itself as a place as vivid and real as the view through our window. The Day in Its Color introduces readers to Cushman's extraordinary work, a recently unearthed archive of photographs that is the largest known body of early color photographs by a single photographer, 14,500 in all, most shot on vivid, color-saturated Kodachrome stock. From 1938-1969, Cushman--a sometime businessman and amateur photographer with an uncanny eye for everyday detail--travelled constantly, shooting everything he encountered as he ventured from New York to New Orleans, Chicago to San Francisco, and everywhere in between. His photos include portraits, ethnographic studies, agricultural and industrial landscapes, movie sets and media events, children playing, laborers working, and thousands of street scenes, all precisely documented in time and place. The result is a chronicle of an era almost never seen, or even envisioned, in color. This well-preserved collection is all the more remarkable for having gone undiscovered for decades. What makes the photos most valuable, however, is the wide range of subjects, landscapes, and moods it captures--snapshots of a lost America as yet untouched by a homogenizing overlay of interstate highways, urban renewal, chain stores, and suburban development--a world of hand-painted signs, state fairs,

ramshackle shops, small town living and bustling urban scenes. The book also reveals the fascinating and startling life story of the man who stood, unseen, on the other side of the lens, surely one of America's most impressive amateur photographers and outsider artists. With over 150 gorgeous color prints, *The Day in Its Color* gives us one of the most evocative visual histories of mid-20th century America that we have.
