Tra le sue opere spicca Democrazia: il problema (1985), sintetica ma attenta disamina dell'evoluzione del concetto di " democrazia ". In tale opera l'autore ci fornisce una visione completa della democrazia, analizzando come il "fenomeno" abbia mutato forma e sostanza nel tempo fino a proporre un'idea di democrazia "organica" che – a detta sua – sarebbe oggi più ...

This book argues that capitalism cannot be said to be truly democratic and that a system of producer cooperatives, or democratically managed enterprises, is needed to give rise to a new mode of production which is genuinely socialist and fully consistent with the ultimate rationale underlying Marx's theoretical approach. The proposition that firms should be run by the workers on their own, was endorsed by John Dewey, the greatest social thinker of the twentieth century, but is also shared by Marxists such as Anton Pannekoek, Karl Korsch, Angelo Tasca, Antonio Gramsci and Richard Wolff. This book explores the history of this argument taking in concepts from economic and political thought including historical materialism, cooperation, utopianism and economic democracy. The book will be of significant interest to scholars and students of political economy, Marxism, socialism, history of economic thought and political theory.

[Italiano]: Il presente lavoro costituisce una biografia intellettuale di Jacques-André Naigeon (1735-1810), importante figura del secolo dei Lumi francese. Biografo e primo editore di Diderot, Naigeon fu testimone privilegiato delle innumerevoli vicende politiche, sociali e culturali che sconvolsero la società francese. Ateo convinto, editore infaticabile, fine conoscitore della letteratura clandestina, il giovane Naigeon fece in tempo a collaborare agli ultimi volumi dell'Encyclopédie e a partecipare, con il barone d'Holbach, alla propagazione di numerosi scritti eterodossi, materialisti e ferocemente anti-clericali; dopo la Rivoluzione – la quale lo spinse alla riflessione ma non ad un'attività politica propriamente detta – fu integrato dalla cultura “ufficiale” tramite l'elezione presso l'Institut de France: ma nonostante alcuni lavori editoriali di grande pregio, Naigeon resterà esclusivamente la testimonianza vivente di una stagione culturale ormai irripetibile ./[English]: This work aims at being an intellectual biography of Jacques-André Naigeon (1735-1810), an important figure of French

Enlightenment. Not only was he very close to Diderot - of whom he was biographer and editor - but he was also a privileged witness of the countless political, social and cultural events that led to the French Revolution. Besides being a convinced atheist, a tireless publisher, a fine connoisseur of Clandestine literature, Naigeon had the opportunity to collaborate in writing the last volumes of the Encyclopédie and to participate in the propagation of heterodox, materialistic and fiercely anti-clerical writings. After the Revolution - at the beginning of which he tried in vain to make himself heard by the Assemblée Nationale - he was then integrated into the "official" culture through the election at the Institut de France: however, even if he is the author of some prestigious works, Naigeon remains exclusively the living testimony of a now unrepeatable cultural season.
