[rmapi.youthmanual.com](http://rmapi.youthmanual.com)

The change request form is arguably the most important document in the change control process. It provides a single avenue for requesting a change. Once the change is requested, it becomes sized and either approved, deferred, or disapproved. If approved, the projects plans must reflect the change and the change must be implemented.

## Change Request Template | Change Request Form

A change control document has to be a systematic and sequential entry of data supporting change in a project. It goes through an initial process of change request, through the process of change approval or denial and finally with change implementation, if it is approved. Noted below are a few basic steps of the change control documentation process.
