Electronic Commerce, Fourth Edition is a complete introduction to the world of electronic commerce, including balanced coverage of technical and business topics. Case studies and plentiful business examples complement conceptual coverage to provide a real-world context. Implementation strategies are analyzed, using examples of both successful and unsuccessful implementations.

Electronic Commerce is a complete introduction to the world of electronic commerce, including balanced coverage of technical and business topics. Case studies and plentiful business examples complement conceptual coverage to provide a real-world context. Implementation strategies are analyzed, using examples of both successful and unsuccessful implementations.

Annotation Digital Economy provides information about the socioeconomic aspects of the digital economy. This set of eighteen essays covers the effects of digital economy on business transactions, technology and culture, as well as on education. It also covers various aspects of global production, trade, and investment and the effects of the Internet.

Law of the Internet, Fourth Edition is a two-volume up-to-date legal resource covering electronic commerce and online contracts, privacy and network security, intellectual property and online content management, secure electronic transactions, cryptography, and digital signatures, protecting intellectual property online through link licenses, frame control and other methods, online financial services and securities transactions, antitrust and other liability. The Law of the Internet, Fourth Edition quickly and easily gives you everything you need to provide expert counsel on: Privacy laws and the Internet Ensuring secure electronic transactions, cryptography, and digital signatures Protecting intellectual property online - patents, trademarks, and copyright Electronic commerce and contracting Online financial services and electronic payments Antitrust issues, including pricing, bundling and tying Internal network security Taxation of electronic commerce Jurisdiction in Cyberspace Defamation and the Internet Obscene and indecent materials on the Internet Regulation of Internet access and interoperability The authors George B. Delta and Jeffrey H. Matsuura -- two Internet legal experts who advise America's top high-tech companies -- demonstrate exactly how courts, legislators and treaties expand traditional law into the new context of the Internet and its commercial applications, with all the citations you'll need. The Law of the Internet also brings you up to date on all of the recent legal, commercial, and technical issues surrounding the Internet and provides you with the knowledge to thrive in the digital marketplace. Special features of this two-volume resource include timesaving checklists and references to online resources.

Packed with real-world examples and business cases, ELECTRONIC COMMERCE, 11E continues to lead the market with its cutting-edge coverage of all things e-commerce. Comprehensive coverage of emerging online business strategies, up-to-the-minute technologies, and the latest developments from the field equips readers with a solid understanding of the dynamics of this fast-paced industry. The new edition offers thorough discussions of e-commerce growth in China and the developing world, social media and online marketing strategies, technology-enabled outsourcing, online payment processing systems, and much more. In addition, Business Case Approaches and Learning From Failure boxes highlight the experiences of actual companies to illustrate real-world practice in action. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

NEW PERSPECTIVES ON THE INTERNET has been updated to cover the newest releases of the three main web browsers including Internet Explorer 9, Mozilla Firefox 4, and Google Chrome. With the New Perspectives critical-thinking, problem-solving approach, students will learn basic to advanced features of the Internet from Browser Basics to Electronic Commerce. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

E-mail, e-marketing, e-commerce, e-business, and e-communities - just a few years ago, having a presence on the Web was considered innovative. Today, a Web presence is not only innovative; it's imperative. With the advent of home banking, package tracking, order entry, order status inquiry, and other customer services, a business without a Web strategy will soon be out of business. Driven by the needs of e-commerce, Web-to-Host Connectivity demonstrates how to connect legacy systems and databases to the Web and describes the technologies needed to do it. It provides comprehensive coverage of web-to-host solutions and technologies in addition to security, server, network and system management usage. This book places an emphasis on improving data access and data exchange, no matter where it resides.

Remarkable change is the new reality of International Business. The accelerating cross-border flow of products, services, capital, ideas, technology and people are driving businesses--large and small--to internationalise. International Business 1st Australasian edition: The New Realities is a rigorous resource which motivates and prepares future managers to operate in multi-national settings, by delivering a teaching system that works. Based on the authors' collective teaching and working experience--as well as discussions with practitioners, students, and faculty staff--this is a complete teaching and learning system where cases, exercises and management skill builders are seamlessly integrated and matched to the topics in each chapter. Case studies from a wide variety of markets relevant to Australasian businesses, including ASEAN countries (e.g. Singapore, Malaysia, Indonesia) as well as China, India, Japan, South Korea, Pakistan, Europe and the Middle East, provide a real-world perspective to theories and examine the latest trends in international business. For undergraduate students majoring in international business or post-graduate courses in international business.
