“Feedback” ist der zweite Band von Robison Wells’ “Variant“-Dilogie und setzt genau da an, wo der Vorgänger mit seinem Cliffhanger endete – nämlich exakt einen Satz später. Man ist also wieder sofort mitten im Geschehen und erhält auch schon wenig später direkt die ersten langersehnten Antworten auf einige drängende Fragen.

Mr. Wells has said there will be no third book, but If he reads this I will say, a lot of authors today (because of the ease in downloading Ebooks) are doing Novella's to fill in untold gaps in their stories. I do wish you would consider a Novella to fill in the gaps of the ending. If you read Variant and liked it, I do recommend Feedback.

Variant Series by Robison Wells - Goodreads

Benson Fisher thought that a scholarship to Maxfield Academy would be the ticket out of his dead-end life. He was wrong. Now he’s trapped in a school that’s surrounded by a razor-wire fence. A school where video cameras monitor his every move. Where there are no adults. Where the kids have split into groups in order to survive. Where breaking the rules equals death. But when Benson stumbles upon the school’s real secret, he realizes that playing by the rules could spell a fate worse than death, and that escape—his only real hope for survival—may be impossible.

Perfect for fans of James Dashner’s The Maze Runner, Feedback is the heart-stopping sequel to Variant—which Pittacus Lore, author of I Am Number Four, praised as "an intense journey with some of the most shocking twists and turns I've ever read." Benson Fisher escaped from Maxfield Academy’s deadly rules and brutal gangs. He thought that the worst was over. But now Benson is trapped in a different kind of prison—a town filled with familiar faces. Classmates from Maxfield who Benson had seen die. Friends he was afraid he had killed. They are all pawns in the school's twisted experiment, held captive and controlled by an unseen force. And while Benson struggles to figure out who, if anyone, can be trusted, he discovers that Maxfield Academy’s plans are darker than anything he imagined—and they may be impossible to stop.

We are not alone. They are here. And there’s no going back. Perfect for fans of The Fifth Wave and the I Am Number Four series, Dark Energy is a thrilling stand-alone science fiction adventure from Robison Wells, critically acclaimed author of Variant and Blackout. Five days ago, a massive UFO crashed in the Midwest. Since then, nothing—or no one—has come out. If it were up to Alice, she’d be watching the fallout on the news. But her dad is director of special projects at NASA, so she’s been forced to enroll in a boarding school not far from the crash site. Alice is right in the middle of the action, but even she isn’t sure what to expect when the aliens finally emerge. Only one thing is clear: everything has changed.

Homeland meets Marie Lu’s Legend in the explosive sequel to Blackout, which #1 New York Times bestselling author Ally Condie called “a thrilling combination of Wells’s trademark twists and terror. Fantastic!” It began with a virus. Then a series of attacks erupted across the nation. Now America is at war—and a handful of teens with impossible powers are its only defense. In Dead Zone, Robison Wells delivers his most nail-bitingly tense read yet—and an electrifying conclusion to a two-book series that’s perfect for fans of The Maze Runner and I Am Number Four.

Suddenly, Jack, Laura, Aubrey, and Alec find their lives intertwined in a complex web of deception, loyalty, and catastrophic danger—where one wrong choice could trigger an explosion that ends it all.

Benson Fisher thought that a scholarship to Maxfield Academy would be the ticket out of his dead-end life. He was wrong. The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ► an explanation of the key aspects of the CEFR for teaching and learning; ► a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ► a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ► promote and support the learning and teaching of modern languages; ► enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ► protect linguistic and cultural diversity in Europe; and ► promote the right to quality education for all.
