[Color Cover; Black-and-White Interior] Are you looking for super fun and engaging Math Puzzles, Math Riddles, and Math Brain Teasers for Kids ages 10 and up? Your kids will love solving these colorful math activities that cover a variety of topics including logical thinking, the order of operations, and some of the most famous math riddles of all time! The book includes hints and an answer key for every activity. It is best suited for students in grades 4 through 9.

Ever notice how people sometimes use math words inaccurately? Or how sometimes you instinctively know a math statement is false (or not known)?Each chapter of this book makes a point like those above and then illustrates the point by doing some real mathematics through step-by-step mathematical techniques.This book gives readers valuable information about how mathematics and theoretical computer science work, while teaching them some actual mathematics and computer science through examples and exercises. Much of the mathematics could be understood by a bright high school student. The points made can be understood by anyone with an interest in math, from the bright high school student to a Field's medal winner.

KewlActiveMinds(TM) Workbooks and Practice Worksheets are immersive self-study tools that encourage and stimulate your child's mind, while at the same time letting them have fun learning!
