For the first time, Her Majesty's diaries are opened... 'Had Mrs 'call me Carole' Middleton on the phone after lunch. Wanting to check 'our outfits don't clash on the big day'. One seriously doubts they would.' Queen of sixteen sovereign nations, Head of the Commonwealth, Defender of the Faith. She's one of the world's most well-known and powerful leaders and has reigned for almost 60 years. She's been privy to every major event and decision. But what does she really think? 'One does enjoy the Eurovision Song Contest. Lovely to be reminded how much more civilised the British are than our European neighbours. Royal Eurovision Fancy Dress Party to celebrate. Unfortunately Camilla misread the invitation as 'Euro-tunnel Fancy Dress Party' and came as a train.' Taking in the momentous events of 2011, including two Royal Weddings, the phone hacking scandal and the Duke of Edinburgh's 90th Birthday Tarts and Vicars Party, these diaries reveal the seldom-seen workings of state and reveal how an octogenarian is quietly ruling the world and still has time for a gin. 'No, Mr Clegg, people born in Libya are not 'Librarians'. twitter.com/queen_uk facebook.com/royalginoclock

Sixty years on the throne. Only the second monarch to celebrate a Diamond Jubilee. It's been a challenge, one doesn't mind telling you. But despite it all, one's still here. Still keeping the ship afloat, still in charge, still iconic, still keeping the gin industry in business, still ruling the world. Still reigning. God Save One. Discover the wildly popular Queen on Twitter, who will show you the Royals and the world as you've never seen before! Mrs. Queen's Chump is the military memoir of a young man who, naively acquiescing to a period of "adventure" after leaving boarding school, soon found himself enmeshed in the agonies of subjugated peoples caught in the turmoil of a collapsing British Empire and demanding restoration of their dignity and rightful human freedoms. Left to deal as best he could with his own transition from boy to man - somewhat before PTSD became a recognizable quantity - he realized as a born Canadian citizen he might easily have avoided service in Britain's army - but he had committed himself, so entered with his eyes open and became a keen observer. In stories that are sometimes funny, sometimes frightening, yet somehow tinged with the sadness that always jolts the loss of innocence, the author tells of experiences as an infantry officer fighting in the jungles of both Kenya and Malaya. They are incident of another time, yet hauntingly contemporary - soldiers sent to far off corners of the world to secure the privileges of tough and ambitious colonizers, themselves champions of Empire (no matter whose) who feel full entitlement over both people and resources. Bring up the troops! Despite clear dangers, thousands of bright-eyed and brainwashed young Brits whose invincible dads had recently thrashed Hitler were now, by the late 1940's and 1950's, keen to do their bit, to head abroad and "have a go" at running the Empire. They sallied forth into what they thought a halcyon sunset in need of some burnishing, but in reality dazzling in its madness. By the end their military weight and wallop proved insufficient to address the anger of millions of very "restless natives" - or to douse the frenzies of Idi Amin. The initial disease was Empire Myopia. Within a short time, and like Kurtz in Heart of Darkness, those who had come to impose order themselves succumbed to an Idi-like dementia that tumbled the whole wretched Empire to its knees. About the Author Born in Vancouver, Canada, Jeremy Hespeler-Boulton started school in Australia, continued in the United States and Canada, and graduated from high school in Britain - this last giving rise to the military service described in these pages. A young and insightful officer, whose views often ran counter to those expressed by his superiors, he was in a unique position to observe the collapsing British Empire. Later, as a journalist living in Lisbon, Portugal, he was again witness - this time to the revolutionary shake-up and demise of another of Europe's entrenched old orders. Hespeler-Boulton has worked on major assignments in Canada, the United States, Portugal and numerous countries in Africa. In addition to writing, he is an architectural historian specializing in Renaissance Portugal. He considers "home" to be Victoria, British Columbia, Barrancos, Portugal and Bahir Dar, Ethiopia.

A daughter's love. A monarch's duty. On the road to greatness, one young woman must make an unthinkable choice. For Princess Mary, life has never been simple, but through it all the love of her father, the Duke of York, has been a constant and reliable comfort. Despite his own loyalty to the Catholic Church, the Duke and his brother, King Charles II, raised Mary as a Protestant to protect her in a time of religious and political upheaval. In order to cement this safety and to ensure the stability of the family line, at age fifteen, Mary is married to her Protestant first cousin William, Prince of Orange. However, in post-Restoration England, matters are rarely so simply settled. When Mary's uncle, King Charles II, dies suddenly and without an heir, her beloved father is crowned James II. But a Catholic king is not the will of the people, and even Mary's own husband is crying out for change. Can Mary take part in actions that will ultimately remove her own father from the throne and endanger his life? With family loyalty and the will of a nation at odds, what choice can a young princess make? With emotional clarity and vivid historical detail, beloved author Jean Plaidy brings us into the court and behind the scenes as history unfolds—and the young princess and her groom become William and Mary—the legendary monarchs, and the only co-regents in the history of a nation.

Chronicling as it does the breakdown of George IV's marriage to his loathed cousin Caroline, and his futile attempt to divorce her and deprive her of her royal rights and status, A Queen on Trial throws up fascinating parallels with Diana and Charles' acrimonious separation and is a timely reminder of the cyclical, repetitive nature of history.

First novel in the Queen's Airman series, following Hugh Thomas through his early air force days. He completes his growing up in a strict regime enlivened by demanding training both physically and academically. Love and sex are also taken care of by several women only too eager for liaisons with the handsome young man in uniform. He is involved in many escapades and forms friendships with members of the 73rd Entry, No1 Radio School. Friends who appear later in the series. During his third year Thomas comes to the attention of the security services who recruit him for a special task working in a secret establishment in an attempt to hoodwink a Russian GRU team operating in the UK. An early introduction in to what is to become a life of love, despair, intrigue and death. A time of growing up in a treacherous world of betrayal.
