This product of the Facility Guidelines Institute (FGI) provides minimum standards for design and construction of hospitals and outpatient facilities. The standards for long-term care facilities will appear in a new document for 2014; please see the entry for Guidelines for Design and Construction of Residential Health, Care, and Support Facilities. Included in the Guidelines for Hospitals and Outpatient Facilities is information on the planning, design, construction, and commissioning process and facility requirements for both hospitals and

operations. This manual contains the initial training and qualifications of the personnel designated to occupy these critical positions. This training circular (TC) provides all Department of Defense (DOD) Airborne personnel with techniques and training guidelines to maintain an Airborne force. It also updates FM 3.21.220, dated 23 September 2003. This publication supersedes FM 3-21.220/MCWP 3-15.7/AFMAN11-420/NAVSEA, SS400-AF-MMO-010, 23 Sept 2003. This book applies to the U.S. Army, the U.S. Army National Guard (ARNG), the U.S. Army Reserve (USAR),

the United States Marine Corps, the Department of the Navy, and the Department of the Air Force. TC 3-21.220 (FM 3-21.220) MCWP 3-315.7 AFMAN 11-420 NAVSEA SS400-AF-MMO-010

This series covers the entire scope of rotary drilling operations in five units of technical information and review questions. These units are published in cooperation with the International Association of Drilling Contractors. In some cases, previous editions are available in Spanish, while supplies last, for \$14. Open-book comprehensive tests

covering Units I, II, III, and V of the Rotary Drilling Series are available. This totally rewritten lesson deals with the proper handling and maintenance of the crown and traveling blocks and the drilling line. It also covers inspection procedures for equipment and programs for increasing drilling line service life. All measurements are given in both U.S. and SI units. Illustrations, summary boxes, and study questions enhance the student's learning experience.
