NEW YORK TIMES BESTSELLER • This instant classic explores how we can change our lives by changing our habits. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Wall Street Journal • Financial Times In The Power of Habit, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of human nature and its potential. At its core, The Power of Habit contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author "Sharp, provocative, and useful."—Jim Collins "Few [books] become essential manuals for business and living. The Power of Habit is an exception. Charles Duhigg not only explains how habits are formed but how to kick bad ones and hang on to the good."—Financial Times "A flat-out great read."—David Allen, bestselling author of Getting Things Done: The Art of Stress-Free Productivity "You'll never look at yourself, your organization, or your world quite the same way."—Daniel H. Pink, bestselling author of Drive and A Whole New Mind "Entertaining . . . enjoyable . . . fascinating . . . a serious look at the science of habit formation and change."—The New York Times Book Review

Seminar paper from the year 2014 in the subject Business economics - Business Ethics, Corporate Ethics, grade: 9 out of 10 (max. 10), course: 3, language: English, abstract: Several research studies have examined corporate social responsibility (CSR) and its effects on business performance, but their results vary widely. This paper studies the interaction between social, environmental and short-term financial performance. Using a sample of the 16 largest multinational FMCG companies from the US and Europe covering the period 2005-2012 and employing two different test methods, namely ordinary least squares (OLS) and Granger causation. We demonstrate that while all CSR dimensions have significant financial effects, there has been only one causality link found between employment structure and short-term profitability.

Seminar paper from the year 2014 in the subject Sociology - Communication, grade: 10 = B, Copenhagen Business School (Department of Strategic Management and Globalization), course: Competing on Social Networks, language: English, abstract: In times of modern communication, social networks and their effects can be found whenever human beings interact in order to exchange resources (intangible assets). When analyzing how these networks can be utilized there is one topic which plays a major role in multiple areas: the concept of reciprocity (Baker, 2000; Gladwell dot com, 1999; Mors, 2014). In order to investigate in what way I am using the concept of reciprocity, this synopsis focuses on different theories. First, the balance between investing and requesting (Baker, 2000) is explored, followed by possible traps of getting stuck inside of a certain social network. This is followed by a narrative of mine about possible mutual benefits of reciprocity. This neatly fits into the topic of the union/disunion strategy (Baker, 2000) as well as building trust (Cross & Parker, 2004), which can provide a flourishing framework for the right use of the concept. Lastly, the intertwined relational links between personal and professional contacts are analyzed. Finally, the synopsis will conclude with possible impacts on my future career and actions that could be taken. It is meant to be a starting point for the upcoming discussion, whether the design of a simplified egocentric social network of mine shows patterns of the investigated theories.
