things function in the pathology clinic with useful lists, key points, case studies and a bullet point format ideal for quick pre-board review. While larger textbooks in clinical chemistry provide highly detailed information regarding instrumentation and statistics, this book is designed to educate senior medical students, residents and fellows on how tests are performed. This second edition successfully helps pathology residents gain command of clinical chemistry, toxicology, immunology, and laboratory statistics in an effort to help them prepare for the American Board of Pathology examination. Clinical chemistry is a topic in which many senior medical students and pathology residents face challenges. Includes chapters on drug-herb interaction and pharmacogenomics, topics not covered by textbooks in the
