The Habsburgs by Martyn Rady review – negative genetic ... The Great Migrations of the Serbs (Serbian:), also known as the Great Exoduses of the Serbs, refers mainly to two large migrations of Serbs from various territories under the rule of Ottoman Empire to regions under the rule of Habsburg Monarchy in the 17th and the 18th centuries. Migration of the Serbs (Seoba Srba), by Serbian painter Paja Jovanovi .

This volume analyzes the relations of the Habsburg Monarchy with the other great powers of Europe, and with the small states that clustered around its borders. Diplomatic, military, political and economic factors are all taken into account.

The definitive history of a powerful family dynasty who dominated Europe for centuries -- from their rise to power to their eventual downfall. Habsburgs ruled much of Europe for centuries. From modest origins as minor German nobles, the family used fabricated documents, invented genealogies, savvy marriages, and military conquest on their improbable ascent, becoming the continent's most powerful dynasty. By the mid-fifteenth century, the Habsburgs controlled of the Holy Roman Empire, and by the early sixteenth century, their lands stretched across the continent and far beyond it. But in 1918, at the end of the Great War, the final remnant of their empire was gone. In The Habsburgs, historian Martyn Rady tells the epic story of the Habsburg dynasty and the world it built -- and then lost -- over nearly a millennium, placing it in its European and global contexts. Beginning in the Middle Ages, the Habsburgs expanded from Swabia across southern Germany to Austria through forgery and good fortune. By the time a Habsburg duke was crowned as Holy Roman Emperor Frederick III in 1452, he and his clan already held fast to the imperial vision distilled in its AEIOU motto: Austriae est imperare orbi universe, "Austria is destined to rule the world." Maintaining their grip on the imperial succession of the Holy Roman Empire for centuries, the Habsburgs extended their power into Italy, Spain, the New World, and the Pacific, a dominion that Charles V called "the empire on which the sun never sets." They then weathered centuries of religious warfare, revolution, and transformation, including the loss of their Spanish empire in 1700 and the dissolution of the Holy Roman Empire in 1806. In 1867, the Habsburgs fatefully consolidated their remaining lands the dual monarchy of Austria-Hungary, setting in motion a chain of events that would end with the 1914 assassination of the Habsburg heir presumptive Franz Ferdinand in Sarajevo, World War I, and the end of the Habsburg era. Their demise was ignominious, and historians often depict the Habsburgs as leaders of a ramshackle, collapsing empire at Europe's margins. But in The Habsburgs, Rady reveals how they saw themselves -- as destined to rule the world, not through mere territorial conquest, but as defenders of Christian civilization and the Roman Catholic Church, guarantors of peace and harmony, and patrons of science and learning. Lively and authoritative, The Habsburgs is the engrossing definitive history of the remarkable dynasty that forever changed Europe and the world.

Written by a well-known specialist , this study on the Austro-Hungarian Empire is based on a wide variety of material from Austrian, British, French and German archives and takes into account recent work by other historians of the subject, particularly the latest Austrian studies. It is supplemented by useful maps and translations of key diplomatic documents of the period.

Introduction: Austria and modernity -- 1815-1835: restoration and procrastination -- 1835-1851: revolution and reaction -- 1852-1867: transformation -- 1867-1879: liberalization -- 1879-1897: nationalization -- 1897-1914: modernization -- 1914-1918: self-destruction -- Conclusion: Central Europe and the paths not taken

The Habsburg Empire’s grand strategy for outmaneuvering and outlasting stronger rivals in a complicated geopolitical world The Empire of Habsburg Austria faced more enemies than any other European great power. Flanked on four sides by rivals, it possessed few of the advantages that explain successful empires. Yet somehow Austria endured, outlasting Ottoman sieges, Frederick the Great, and Napoleon. A. Wess Mitchell tells the story of how this cash-strapped, polyglot empire survived for centuries in Europe’s most dangerous neighborhood without succumbing to the pressures of multisided warfare. He shows how the Habsburgs played the long game in geopolitics, corralling friend and foe alike into voluntarily managing the empire’s lengthy frontiers and extending a benign hegemony across the turbulent lands of middle Europe. The Grand Strategy of the Habsburg Empire offers lessons on how to navigate a messy geopolitical map, stand firm without the advantage of military predominance, and prevail against multiple rivals.

History of the Austrian empire and Austria-Hungary.

This is a revised and updated edition of a highly acclaimed history of the early modern Habsburg monarchy. Charles W. Ingrao challenges the conventional notion of Habsburg state and society as peculiarly backward by tracing its emergence as a military and cultural power of enormous influence. The Habsburg monarchy was undeniably different from other European polities: geography and linguistic diversity made this inevitable, but by 1789 it had laid the groundwork for a single polity capable of transcending its uniquely diverse cultural and historic heritage. Charles W. Ingrao unravels the web of social, political, economic and cultural factors that shaped the Habsburg monarchy during the period, and presents this complex story in a manner that is both authoritative and accessible to non-specialists. This edition includes a revised text and bibliographies, new genealogical tables, and an epilogue which looks forward to the impact of the Habsburg monarchy on twentieth-century events.

The Habsburg Monarchy thoroughly explores the dynastic characters and the multi-national complexity of the region as well as the way the Monarchy dealt with issues within the European framework, like the ending of Absolutism and education. The book spans from Joseph II ’ s accession as Holy Roman Emperor and joint ruler of the Habsburg lands with his Mother Maria Theresa in 1765 to its fall in 1918. Utilizing English, German, Serbo-Croat, Czech, and Magyar sources, as well as others, this book is the most comprehensive history of the Habsburg Empire ever written.
