Comics are all around campuses everyday, and with students arriving less prepared to tackle basics like reading, writing, and analyzing, this text helps connect what students enjoy to the classroom. Comic Connections: Analyzing Hero and Identity is designed to help teachers from middle school through college find a new strategy that they can use right away as part of their curricular goals. Each chapter has three pieces: comic relevance, classroom connections, and concluding thoughts; this format allows a reader to pick-and-choose where to start. Some readers might want to delve into the history of a comic to better understand characters and their usefulness, while other readers might want to pick up an activity, presentation, or project that they can fold into that day's lesson. This book focuses on defining heroic traits in popular characters such as Superman, Batman, or Daredevil, while offering a scholarly perspective on how to analyze character and identity in ways that would complement any literary classroom.

If children are not interested or motivated by what they have been asked to write about, you can be sure that any writing you do get will be rushed, short and a bit half-hearted. In 50 Fantastic Ideas for Early Writing Prompts, Alistair Bryce-Clegg offers a collection of all of his favourite ideas and inspirations that have motivated the children he works with to pick up their pencils and get scribbling!

Spotlighting the challenges and realities faced by linguistically diverse immigrant and resident students in U.S. secondary schools and in their transitions from high school to community colleges and universities, this book looks at programs, interventions, and other factors that help or hinder them as they make this move. Chapters from teachers and scholars working in a variety of contexts build rich understandings of how high school literacy contexts, policies such as the proposed DREAM Act and the Common Core State Standards, bridge programs like Upward Bound, and curricula redesign in first-year college composition courses designed to recognize increasing linguistic diversity of student populations, affect the success of this growing population of students as they move from high school into higher education.

Part philosophy, part practical handbook, 'The Hero Forge' is designed to empower those who want to make a difference in the world. Andy Fisher guides you, chapter by chapter, through the tools, attributes and skills needed to be of service, at a time when we are more in need of heroes than ever before. You do not need a cape, a mask or any superpower to become an 'everyday hero', just a growth mindset and the desire to be part of something bigger than yourself. Heroes are not born, they are forged and this is your call to adventure. Will you shy away or embrace the challenge?

Laura Lentz's popular STORYquest workshop is now available in book form. Through the 12 stages of the Human Quest, her proven, experiential, intensive STORYlabs use examples from best-selling and Pulitzer prize winning literature to illustrate stages of The Hero's Journey. STORYquest improves a writer's work with easy-to-understand summaries, followed by literary inspiration. Writers then create and explore their own unique story through the sixty-eight inspirational writing exercises.

At a time when various political and administrative bodies are calling for the dissolution of basic writing instruction on four-year college campuses, the need for information concerning the options available to university decision makers has become more and more pressing. A wide range of professional judgments surrounding this situation exists. Mainstreaming Basic Writers: Politics and Pedagogies of Access presents a range of positions taken in response to these recent challenges and offers alternative configurations for writing instruction that attempt to do justice to both students' needs and administrative constraints. Chapter authors include, for the most part, professionals entrusted with the role of advocating for a student population often described as "underprepared," "in need of remediation," and "at risk." Throughout the volume, contributors discuss current institutional developments and describe curricular designs that instructors searching for innovative ways to meet the needs of their heterogenous student populations will find helpful as models of college writing program curricula and administration. This book's focus is to give a fair representation of some of the more noted perspectives from nationally recognized scholars and administrators working in the field of basic writing. This presentation of key positions on the issue of mainstreaming basic writers at the college level is an important resource for all writing program administrators, composition and rhetoric students and scholars, and university decision makers from provosts to deans to department chairs.
