UPDATED - SECOND EDITION (JUNE 2021) We spend so much of our digital lives using a computer but often don't give enough attention to its setup and configuration. That's a missed opportunity since doing it well can supercharge your productivity and safeguard your important data. The topics discussed in this book not only apply to a new computer, but can be used to verify that your current computer is optimized for productivity and security as well. The steps I discuss include everything you need to know and do to get the best Windows user experience. The book is written mostly as a step-by-step guide, covering the following steps: Step 0: Pre-Setup Step 1: Setup Computer and Create Administrator and Guest Accounts Step 2: Make a System Image Step 3: Install Antivirus Software Step 4: Remove Crapware Step 5: Update the Operating System (OS) Step 6: Import Data Files from Your Old Computer Step 7: Install Printers and Other Peripherals Step 8: Install and Configure Browser(s) of Choice

The pitch went like this: Chris Butler, a retired cop, ran a private investigator firm in Concord, California. His business had a fascinating angle—his firm was staffed entirely by soccer moms. In fact, Butler employed PI Super Moms: attractive, organized, smart, and trained in investigative techniques, self-defense, and weaponry. This American Life host Ira Glass described them as “MILF: Charlie's Angels.” When this story came across Pete Crooks's desk when he was working at Diablo magazine in 2010, he was instantly hooked. He'd heard a little bit about Butler and his super moms in the news; they'd been featured in People magazine and on Dr. Phil. What Butler's publicist was offering was too tantalizing to pass up: an opportunity to ride along with Butler and a few of his sexy PIs as they prepared to start filming a reality TV show. But after the ride-along—and after he started receiving mysterious emails from one of Butler's employees—Crooks started to realize something didn't seem right. After doing a little digging, he discovered the “sting” he'd seen only had one real victim...him. The PI bust had been a setup. Crooks wasn't a hardboiled crime reporter. He did lifestyle pieces for a regional magazine. The more he learned about Butler's operation, the more he realized he was in far over his head. But swallowing his fears, he decided he was going to write an expose on Butler and his entire organization. He soon found himself deep in the underbelly of fake sting operations, wannabe celebrities, police corruption, drug-dealing, reality television, double-crossing employees, and more twists and turns than a dozen crime thrillers.

Few corporate initiatives of the last ten years have been more influential in the development of a learning culture at work than the corporate learning centre. The first edition of Sam Malone's book quickly established itself as the definitive concise guide to best practice. The second edition reflects the lessons learned since that time, along with the developments in learning technology. Setting up and sustaining a successful centre involves strategic skills such as planning and championing; technical skills, including budgeting, marketing and evaluation; and the people skills of communicating, influencing and managing change. There are chapters in the book for all the stakeholders involved, including the learners themselves. How to Set Up and Manage a Corporate Learning Centre offers definitive advice on all of these areas. Sam Malone demystifies what is a difficult, expensive and long term project for any organization.

In this witty and heartfelt rom-com debut for fans of Jasmine Guillory, Emily Henry, and Tessa Bailey, an Indian American woman signs herself and her boyfriend up for a matchmaking site to prove they're a perfect match, only to be paired with her ex instead. High school sweethearts Rita Chitniss and Milan Rao were the golden couple, until the day he broke her heart. Now, six years later, Rita has turned her passion for furniture restoration into a career and has an almost-perfect boyfriend, Neil. The last thing she needs is for Milan to re-enter her life, but that's exactly what happens when her mother, an unfailing believer in second chances, sets them up. Milan is just as charming, cocky, and confident as he was back in school. Only this time, he actually needs her business expertise, not her heart, to flip a hard-to-sell house for his realty agency. While Rita begrudgingly agrees to help, she's not taking any risks. To prove she's definitely over him, she signs herself and Neil up on MyShaadi.com, a Desi matchmaking site famous for its success stories and trustworthy enough to convince everyone that she and Neil are the new and improved couple. Instead, she's shocked when MyShaadi's perfect match for her isn't Neil...it's Milan. Ignoring the website and her mother is one thing, but ignoring Milan proves much more difficult, especially when she promises to help him renovate the beach house of her dreams. And as the two of them dive deeper into work—and their pasts—Rita begins to wonder if maybe her match wasn't so wrong after all....

This introductory user's guide to systems analysis and systems design focuses on building sustainable information systems to meet tomorrow's needs. It shows how practitioners can apply multiple participatory perspectives in development, so as to avoid future problems. As a practical guide, it is presented to be readily comprehensible and is organized to enable users to concentrate on their goals efficiently, and with minimum theoretical elaboration. The chapters follow the sequence involved in planning an information system, explaining key words, the time involved in each step, ending with a tutorial or exercises.
