"A beautifully comprehensive look at what it might mean to be a sane and emotionally intelligent parent . . . hugely warm, wise, hopeful and encouraging."--Alain de Botton, author of *How Proust Can Change Your Life* Instant #1 Sunday Times Bestseller Every parent wants their child to be happy and every parent wants to avoid screwing them up (the way their parents did!). But how do you do that? In this absorbing, clever, and warm book, renowned psychotherapist Philippa Perry tells us what really matters and what behavior it is important to avoid--the vital dos and don'ts of parenting. Her approach begins with parents themselves and their own psychological make-up and history--and how that in turn influences one's parenting. Instead of mapping out the "perfect" plan, Perry offers a big-picture look at the elements that lead to good parent-child relationships. This refreshing judgement-free book will help you to:  Understand how your own upbringing may affect your parenting  Accept that you will make mistakes and learn what you can do about them  Break negative cycles and patterns  Handle your own and child's feelings  Understand what different behaviors communicate Full of sage and sane advice, *The Book You Wish Your Parents Had Read* is one every parent will want to read and every child will wish their parents had. A PAMELA DORMAN BOOKS/VIKING LIFE TITLE

From the living legend and award-winning author of *Hatchet* comes a laugh-out-loud eco-adventure about a boy, his free-thinking dad and the puppy-training pamphlet that turns their summer upside down. Twelve-year-old Carl is fed up with his dad; he may be brilliant, but bin-diving for food, scouring through rubbish for 'salvageable' junk and wearing clothes fully sourced from garage sales is getting old. Increasingly worried by what his schoolmates will think  and encouraged by his riotous best friend  Carl decides to use a puppy-training pamphlet to 'retrain' his dad's mindset . . . a crackpot experiment that produces some hilarious results! *How To Train Your Dad* is a fierce and funny novel about family, friendship and green-living from middle-grade master Gary Paulsen.

Louis doesn't think much of it when his mum and dad ask him for tips on how to be cool. In fact, he thinks it's pretty funny watching them bump fists and use words like 'safe', 'sick' and 'wicked'. Until Dad turns up outside Louis's new school dressed like a rapper, that is . . . Suddenly they're trying to friend Louis and all his classmates on Facebook, and wearing baseball caps backwards - IN PUBLIC. Louis and his best friend Maddy are horrified. Mum and Dad have taken things too far . . . and immediate action is needed!

Proust Can Change Your Life. Who would have thought that Marcel Proust, one of the most important writers of our century, could provide us with such a rich source of insight into how best to live life? Proust understood that the essence and value of life was the sum of its everyday parts. As relevant today as they were at the turn of the century, Proust's life and work are transformed here into a no-nonsense guide to, among other things, enjoying your vacation, reviving a relationship, achieving original and unclichéd articulation, being a good host, recognizing love, and understanding why you should never sleep with someone on a first date. It took de Botton to find the inspirational in Proust's essays, letters and fiction and, perhaps even more surprising, to draw out a vivid and clarifying portrait of the master from between the lines of his work. Here is Proust as we have never seen or read him before: witty, intelligent, pragmatic. He might well change your life.

Why Do Kids These Days Expect Everything to be Given to Them? Today's kids don't know how to read a map. They can Google the answer to any question at lightning speed. If a teen forgets his homework, a quick call to mom or dad has it hand-delivered in minutes. Fueled by the rapid pace of technology, the Instant Gratification Generation not only expects immediate solutions to problems—they're more dependent than ever on adults. Today's kids are being denied opportunities to make mistakes, and more importantly, to learn from them. They are being taught not to think. In *Teaching Kids to Think*, Dr. Darlene Sweetland and Dr. Ron Stolberg offer insight into the social, emotional, and neurological challenges unique to this generation. They identify the five parent traps that cause adults to unknowingly increase their children's need for instant gratification, and offer practical tips and easy-to-implement solutions to address topics relevant to children of all ages. A must-read for parents and educators, *Teaching Kids to Think* will help you understand where this sense of entitlement comes from—and how to turn it around in order to raise children who are confident, independent, and thoughtful.

You are a parent and with that title comes both endless joy and incredible responsibility. You have the opportunity to mold and shape your child in any way imaginable, and that fact alone is scary and overwhelming. Stop thinking you have to do it all by yourself! In *The Intentional Bookshelf* author, blogger, and bibliophile-mama, Samantha Munoz shares how her daughter's carefully curated bookshelf has saved her sanity as a parent and can save yours, too. Through actionable tips, thoughtful personal stories, and tongue in cheek humor, Sam teaches you: The value of literature for parents and children How to plan and build your child's library The types of books to choose from How to organize your shelves Unique activities to go outside the book and more! The choice is yours; either struggle through parenting with no backup or learn to craft a library of resources that is a reflection of your child and your family. (Hint, if the second option sounds amazing this book is for you!)"

*The Book of Questions for New Parents* is a collection of 300 questions and scenarios that will challenge you to explore yourself and your loved one as new parents of young children.
