The Waning Of The Middle Ages : Huizinga, J : Free ...

Huizinga believed that the boundary between what we call the Renaissance and the Middle Ages was porous, something that scholars today seem to accept for t His thesis is basically that the literature and art of the ages reveals that a culture in decay, ripened to the point where its cultural "forms" (an idea he never defines exactly) have overgrown the ideas they were meant to convey.

The Waning of the Middle Ages by Johan Huizinga

Huizinga's "The Waning of the Middle Ages" replaces the idea that the Middle Ages ended with a door slam, with evidence that its ending was gradual and traceable. The book is a necessary component in the library of every scholar of history.

The Waning of the Middle Ages (Paperback): Amazon.co.uk ...

The Autumn of the Middle Ages, The Waning of the Middle Ages, or Autumntide of the Middle Ages (published in 1919 as *Herfsttij der Middeleeuwen* and translated into English in 1924, German in 1924, and French in 1932), is the best-known work by the Dutch historian Johan Huizinga . Its subtitle is: "A study of the forms of life, thought and art in France and the Netherlands in the fourteenth and fifteenth centuries".

The Autumn of the Middle Ages - Wikipedia

Huizinga had an aesthetic approach to history, where art and spectacle played an important part. His most famous work is The Autumn of the Middle Ages (a.k.a. The Waning of the Middle Ages and as Autumntide of the Middle Ages) (1919). Worthy of mentioning are also Erasmus (1924) and Homo Ludens (1938). In the latter book he discussed the possibility that play is the primary formative element in human culture.

Johan Huizinga - Wikipedia

In his Preface to THE WANING OF THE MIDDLE AGES, Johan Huizinga suggests that the decay of a culture may be as suggestive as the birth of a new era. The twilight of a civilization, he observes, may ...

The Waning of the Middle Ages Critical Essays - eNotes.com

The Waning of the Middle Ages is cultural historian Johan Huizinga ' s fascinating examination of late medievel society. Huizinga paints a portrait of the conventions and customs of life in the fourteenth and fifteenth centuries as they reflect an autumnal waning—herfsttij—of the Middle Ages ' ideals. Considering theology and mysticism, politics and statesmanship, poetry and painting, marriage and love, Huizinga presents this period in France and the Netherlands as a death of an age ...

The Waning of the Middle Ages: Amazon.co.uk: Huizinga ...

Decline, decay, death: no image conjured by Johan Huizinga ' s Herfsttij ' has proved to be as enduring as that of a withering medieval civilization, wasting away in the late fourteenth and fifteenth centuries, in no small part because of the titles by which the book was known in its first English and French translations: The Waning of the Middle Ages (1924) and Le déclin du Moyen Age (1932). Applied to the religious sphere, the vision of an atrophied culture merged almost seamlessly with ...

It covers more than art's and includes theology, poetry and statesman bringing to the close the Middle Ages and the beginning of the Renaissance. It is a just a translation from the original Dutch but an adaption under the direction of J Huizinga, the author.

The Waning of the Middle Ages: Huizinga, Johan ...

Huizinga ' s concept of the "waning" or "autumn" of the Middle-Ages was completely original, and flew in the face of contemporary art history scholarship. Unlike the art historians mentioned in the extract who viewed Van Eyck and Memling ' s paintings as expressions of a new dawn, Huizinga saw them as signs of decadence.

Huizinga and the Waning of the Middle Ages.

Huizinga was a herald of this great change, and his Waning of the Middle Ages was one of the earliest and most influential models of the new history of the twentieth century.1 He had, of course, distinguished predecessors.

Long regarded as a landmark of historical scholarship, The Waning of the Middle Ages is also a remarkable work of literature.

The first full translation into English of Johan Huizinga's classic portrait of life, thought, and art in fourteenth- and fifteenth-century France and the Netherlands, "The Autumn of the Middle Ages" presents a "pathbreaking piece of historical interpretation" ("New York Times Book Review"). 45 halftones.

This edited volume is a reappraisal of the legacy and historiographical impact of Johan Huizinga's 1919 masterwork for the centenary of its publication in the field of medieval history, art history, and cultural studies.

Desiderius Erasmus (ca. 1466 - 1536), the illegitimate child of a Rotterdam priest and a physician's daughter, grew up to become the greatest figure in the northern Renaissance and one of the most celebrated men in Europe--a scholar of such vast learning, sacred and secular, that both royalty and universities petitioned for his services. In this painstakingly researched and well-written biography, a noted scholar traces the life and works of Erasmus from the depths of monastic obscurity to his prominent role as one of the leading humanists of the day, and a central figure of the Reformation. We learn of Erasmus's childhood and early youth, his years as an itinerant scholar, his sojourns in France, England, Switzerland, and Italy, his close friendship with Sir Thomas More, and his theological disputations with Martin Luther. The author provides in-depth analysis of Erasmus' mind and character, and perceptive discussions of his writings, including the 1509 Lucianic satire In Praise of Folly (in the Latin, Encomin moriae, a punning allusion to More, with whom Erasmus was staying when he wrote it), which turned out to be one of his most popular and enduring works. Huizinga also discusses Erasmus' extremely influential (though controversial) translation of the New Testament from Greek into elegant Latin, which provided theologians with a much more accurate text than had previously been available. A thinker of timeless relevance, Erasmus, through his writings, exercised enormous influence on subsequent Western thought and culture. This edition of Johan Huizinga's classic biography is sure to appeal to students, scholars, and general readers.

This collection by the distinguished Dutch historian Johan Huizinga (1872-1945) reflects the theme of its key essay, 'The Task of Cultural History,' throughout its pages. Huizinga's conception of cultural history informs both his essays on historiographic questions and those on such figures as John of Salisbury, Abelard, Joan of Arc, Erasmus, and Grotius. Originally published in 1984, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

A study of the chief personalities and forces that brought Western Europe to pre-eminence as a centre for political experimentation, economic expansion, and intellectual discovery.
