BEN SMITH: PROFESSIONAL FOOTBALLER. Recognise the name? Of course you don't. That's because most of Smith's years in the game were spent outside the vaunted, big-money environs of the Premier League - and this sporting memoir is all the more entertaining as a result. 1995: an adolescent Ben arrives at the training ground of one of England's biggest clubs to begin his journey and realise his dream of playing top-flight professional football. Aged just sixteen, he shares pre-season sessions at Arsenal with the likes of Dennis Bergkamp and Ian Wright. Surely this is the start of a stellar career? Instead, the next seventeen years saw the bright young star descend the ranks from Highbury to obscurity. With seasons

playing for the likes of Reading, Yeovil, Southend, Hereford, Shrewsbury and Weymouth - and a career including three promotions, one relegation and some very memorable FA Cup games - Ben's story is one of a quintessential journeyman footballer. Candidly describing the negotiations, insecurities, injuries, relocations, personal implications and wet Saturday afternoons playing in front of 500 people, Journeyman offers a unique insight into the unvarnished life of a lower-league player - so far removed from the stories of pampered Premiership stars - as well as documenting the many teammates, opponents, managers and coaches who left an indelible mark on Ben's eclectic career. Refreshingly unsentimental and often hilarious, Smith's story is essential reading for all true fans of the not-always-so-beautiful game.

'Not since The Football Man has a book so captured the passion of the game. The Bottom Corner is a wonderful journey through life in the lower reaches of the football pyramid. A fascinating tale of a very different world of football from that of the overpaid stars of the television age' Barry Davies In these days of oligarch owners, superstar managers and players on sky-high wages, the tide is turning towards the lower reaches of the pyramid as fans search for football with a soul. Plucky underdogs or perennial underachievers, your local non-league team offers hope, drama or at least a Saturday afternoon ritual that's been going for decades. Nige Tassell spends a season in the non-league world. He meets the raffle-ticket seller who wants her ashes scattered in the centre-circle. The envelope salesman who discovered a future England international. The ex-pros still playing with undiluted passion on Sunday mornings. He spends time at clubs looking for promotion to the Football League, clubs just aiming to get eleven players on a pitch every week, and everything in between. One thing unites them: they all inhabit the heartland of the beautiful game.

Like lots of college grads, Daniel Seddiqui was having a hard time finding a job. But despite more than forty rejections, he knew opportunities had to exist. So he set out on an extraordinary quest: fifty jobs in fifty states in fifty weeks. And not just any jobs—he chose professions that reflected the culture and economy of each state. Working as everything from a cheesemaker in Wisconsin, a border patrol agent in Arizona, and a meatpacker in Kansas to a lobsterman in Maine, a surfing instructor in Hawaii, and a football coach in Alabama, Daniel chronicles how he adapted to the wildly differing people, cultures, and environments. From one week to the next he had no idea exactly what his duties would be, where he'd be sleeping, what he'd be eating, or how he'd be received. He became a roving news item, appearing on CNN, Fox News, World News Tonight, MSNBC, and the Today show—which was good preparation for his stint as a television weatherman. Tackling challenge after challenge—overcoming anxiety about working four miles underground in a West Virginia coal mine, learning to walk on six-foot stilts (in a full Egyptian king costume) at a Florida amusement park, racing the clock as a pit-crew member at an Indiana racetrack—Daniel completed his journey a changed man. In this book he shares stories about the people he met, reveals the lessons he learned, and explains the five principles that kept him going.

During the same period in which Derek Walcott was pouring immense physical, emotional, and logistical resources into the foundation of a viable first-rate West Indian theatre company and continuing to write his inimitable poetry, he was also busy writing newspaper reviews, chiefly for the *Trinidad Guardian*. His prodigious reviewing activity extended far beyond those areas with which one might most readily associate his interests and convictions. As Gordon Rohlehr once presciently observed, “If one wants to see a quotidian workaday Walcott, one should go back to [his] well over five hundred articles, essays and reviews on painting, cinema, calypso, carnival, drama and literature,” articles which “reveal a rich, various, witty and scrupulous intelligence in which generous humour counterpoints acerbity.” These articles capture the vitality of Caribbean culture and shed additional light on the aesthetic preoccupations expressed in Walcott's essays published in journals. The editors have examined the corpus of Walcott's journalistic activity from its beginnings in 1950 to its peak in the early 1970s, and have made a generous selection of material from the *Guardian*, along with occasional pieces from such sources as *Public Opinion* (Kingston) and *The Voice of St. Lucia* (Castries). The articles in Volume 1 are

organized as follows: Caribbean society, culture, and the arts generally; literature and society; periodicals; anglophone poetry, prose fiction, and non-fiction; African and other literatures; and the visual arts (Caribbean and beyond). The volume closes with a selection of Walcott's miscellaneous satirical essays. The volume editor Gordon Collier has written a searching introductory essay on a central theme - here, a critical, comparative analysis of Walcott's development as journalist against the historical background of press activity in the Caribbean, coupled with an illustrative discussion (drawing on Walcott's newspaper articles) of his attitudes towards prose fiction and poetry.

This rich history of marquetry is presented in context by one of its most ardent and talented proponents - Silas Kopf. A distinguished cabinetmaker for more than thirty years, Kopf identifies the origins and influences of numerous decorative arts and architectural elements that have and continue to have an impact on his own work. Almost half of professional soccer players face the threat of bankruptcy within five years of their retirement. A third will be divorced less than a year after hanging up their boots. With little or no support from the game to which they gave their lives, many end up addicted, depressed, living with debilitating illnesses, even behind bars or worse. While an elite few may be financially secure, or others may land plum managerial jobs or punditry roles, it transpires that for the majority retirement is something they're not prepared for and lives can spiral into a rapid and depressing decline. Retired is the ultimate "where are they now?" and asks what actually happens to most soccer players once they hang up their boots. How do players cope with going from heroes to zeroes in such a short space of time? And what can be done to help with their transition to normal life?

Part fable, part allegory, *The Boatmaker* is the haunting and passionate story of a voyage of self-discovery. A fierce and complicated man wakes from a fever dream compelled to build a boat and sail away from the isolated island where he was born. Encountering the wider world for the first time, the reluctant hero falls into a destructive love affair, is swept up into a fanatical religious movement,

and finds himself a witness to racial hatred unlike anything he's ever known. The boatmaker is tempted, beaten, and betrayed: his journey marked by chilling episodes of violence and horror while he struggles to summon the strength to make his own way. The Boatmaker is a fable for our times, a passionate love story, and an odyssey of self-discovery.
