~~Management Information Systems provides comprehensive and integrative coverage of essential new technologies, information system applications, and their impact on business models and managerial decision-making in an exciting and interactive manner. The twelfth edition focuses on the major changes that have been made in information technology over the past two years, and includes new opening, closing, and Interactive Session cases.~~

~~For introductory courses in Information Systems or Management Information Systems. Connect Essential MIS Concepts to Everyday Life Essentials of MIS takes an in-depth look at how today's businesses use information technologies and systems to achieve corporate objectives. Current real-world business cases illustrate how companies have identified and ultimately solved key business challenges using information systems and technologies. Through the use of Essentials of MIS, readers will be able to participate in, and even lead, management discussions of information systems for a firm. Part of a complete learning package that includes the core text and extensive supplemental online materials, the core book consists of twelve chapters with hands-on projects (including video case studies and instructional video packages) covering the most essential topics in MIS. The Twelfth Edition continues to be authoritative, but is now more customizable, flexible, and geared to meeting the needs of different instructors, with many of its learning tools now available in digital form. Also Available with MyMISLabTM This title is also available with MyMISLab, an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. NOTE: You are purchasing a standalone product; MyMISLab does not come packaged with this content. If you would like to purchase both the physical text and MyMISLab, search for: 0134473701 / 9780134473703 Essentials of MIS MyMISLab with Pearson eText -- Access Card Package Package consists of: 0134238249 / 9780134238241 Essentials of MIS 0134325184 / 9780134325187 MyMISLab with Pearson eText -- Access Card -- for Essentials of MIS~~

~~For undergraduate and graduate MIS courses. An in-depth look at how today's businesses use information technologies. Many businesses look for candidates who know how to use information systems, making a general understanding of information systems an asset to any business student. Laudon and Laudon continue to define the MIS course for all business majors by emphasizing how business objectives shape the application of new information systems and technologies.~~

~~An in-depth look at how today's businesses use information technologies. Many businesses look for candidates who know how to use information systems, making a general understanding of information systems an asset to any business professional. Laudon and Laudon emphasize how business objectives shape the application of new information systems and technologies. The ninth edition focuses on currency and cutting-edge topics.~~

~~This text emphasizes the three major driving forces behind e-commerce: technological change, business development, and social issues, to provide a coherent conceptual framework for understanding the field.~~

~~An introduction to e-commerce focusing on key concepts and the latest empirical and financial data. Hundreds of examples from companies such as Facebook, Google, Twitter, and Amazon illustrate how e-commerce is altering business practices and driving shifts in the global economy~~

~~Using MIS is the book that teaches students how people use information systems to solve business problems. Building on students' experience and knowledge base from personal MIS to workgroup MIS to enterprise MIS, this text stresses the important role of Information Systems in satisfying business objectives. Realistic examples, mini-cases, case applications, and thought-provoking review material with projects promote active learning. This text is beneficial to the business professional interested in a basic understanding of management information systems today.~~

~~For introductory undergraduate courses in Information Systems taught in MIS, IS, CIS, Business and Management departments. This brief text is ideal for courses on quarter systems and those that combine a MIS text with hands-on software, projects, or case studies. These authoritative authors continue to define the MIS course by emphasizing how business objectives shape the application of new information systems and technologies and integrating a career orientation that demonstrates the relevance of information systems to all business students regardless of their major.~~
