When the Sudanese civil war reaches his village in 1985, 11-year-old Salva becomes separated from his family and must walk with other Dinka tribe members through southern Sudan, Ethiopia and Kenya in search of safe haven. Based on the life of Salva Dut, who, after emigrating to America in 1996, began a project to dig water wells in Sudan. By a Newbery Medal-winning author.

In this picture book companion to the bestseller *A Long Walk to Water*, a young South Sudanese girl goes on a journey that requires determination, persistence, and compassion. Young Nya takes little sister Akeer along on the two-hour walk to fetch water for the family. But Akeer becomes too ill to walk, and Nya faces the impossible: her sister and the full water vessel together are too heavy to carry. As she struggles, she discovers that if she manages to take one step, then another, she can reach home and Mama's care. Bold, impressionistic paintings by Caldecott and Coretta Scott King Honor winner Brian Pinkney evoke the dry, barren landscape and the tenderness between the two sisters. An afterword discusses the process of providing clean water in South Sudan to reduce waterborne illness.

From #1 New York Times bestselling author Stephen King whose "storytelling transcends genre" (Newsday) comes "another winner: creepy and touching and horrifyingly believable" (The Boston Globe) about a group of kids confronting evil. In the middle of the night, in a house on a quiet street in suburban Minneapolis, intruders silently murder Luke Ellis's parents and load him into a black SUV. The operation takes less than two minutes. Luke will wake up at The Institute, in a room that looks just like his own, except there's no window. And outside his door are other doors, behind which are other kids with special talents—telekinesis and telepathy—who got to this place the same way Luke did: Kalisha, Nick, George, Iris, and ten-year-old Avery Dixon. They are all in Front Half. Others, Luke learns, graduated to Back Half, "like the roach motel," Kalisha says. "You check in, but you don't check out." In this most sinister of institutions, the director, Mrs. Sigsby, and her staff are ruthlessly dedicated to extracting from these children the force of their extranormal gifts. There are no scruples here. If you go along, you get tokens for the vending machines. If you don't, punishment is brutal. As each new victim disappears to Back Half, Luke becomes more and more desperate to get out and get help. But no one has ever escaped from the Institute. As psychically terrifying as *Firestarter*, and with the spectacular kid power of *It*, The Institute is "first-rate entertainment that has something important to say. We all need to listen" (The Washington Post).

future On the last evening of summer in 2013, five shots rang out in a part of northeast Denver known as the Holly. Long a destination for African American families fleeing the Jim Crow South, the area had become an "invisible city" within a historically white metropolis. While shootings there weren't uncommon, the identity of the shooter that night came as a shock. Terrance Roberts was a revered anti-gang activist. His attempts to bring peace to his community had won the accolades of both his neighbors and the state's most important power brokers. Why had he just fired a gun? In *The Holly*, the award-winning Denver-based journalist Julian Rubinstein reconstructs the events that left a local gang member paralyzed and Roberts facing the possibility of life in prison. Much more than a crime story, *The Holly* is a multigenerational saga of race and politics that runs from the civil rights movement to Black Lives Matter. With a cast that includes billionaires, elected officials, cops, developers, and street kids, the book explores the porous boundaries between a city's elites and its most disadvantaged citizens. It also probes the fraught relationships between police, confidential informants, activists, gang members, and ex-gang members as they struggle to put their pasts behind them. In *The Holly*, we see how well-intentioned efforts to curb violence and improve neighborhoods can go badly awry, and we track the interactions of law enforcement with gang members who conceive of themselves as defenders of a neighborhood. When Roberts goes on trial, the city's fault lines are fully exposed. In a time of national reckoning over race, policing, and the uses and abuses of power, Rubinstein offers a dramatic and humane illumination of what's at stake.
