The true crime story of murdered Florida lottery winner Abraham Shakespeare. Poor man. Rich man. Dead man. It sounded like a fairy tale: A homeless man named Abraham Shakespeare spent his last dollars on a Florida State lottery ticket—and miraculously won \$31 million. Unprepared for his new found fortune, Abraham hired Dorice “Dee Dee” Moore to help manage his winnings and field the numerous requests for loans and assistance that he received. But somehow, Dee Dee was the only one benefiting. When Abraham quietly disappeared from his home in Florida, friends and family grew suspicious—though he could not read or write, his only form of contact was through odd letters and texts. But it wasn't until investigators began to question Dee Dee about her role in Abraham's finances that a complicated web of lies—and the desperate lengths to which one woman would go to cover it up—was exposed...

This book provides a critical overview of significant developments in research and theory on counterfactual thinking that have emerged in recent years and spotlights exciting new directions for future research in this area. Key issues considered include the relations between counterfactual and casual reasoning, the functional bases of counterfactual thinking, the role of counterfactual thinking in the experience of emotion and the importance of counterfactual thinking in the context of crime and justice.

This book suggests we should adjust money supply to account for productivity if deflation is to be avoided. The central banker is not profit oriented and can create money at will, not be subject to rational investor constraints. Businesses leverage low interest rates enforced by the central bank to grow and increase employment, compensating for the reduced labor necessary for the former level of goods and services. This leveraged difference in returns is the equity premium. Even a one time productivity increase requires a corresponding permanent increase not in the money supply itself, but in the "rate of increase" of the money supply. Given the steady growth in productivity of the last 100 years, the world economy is now grossly under-stimulated and in danger of precipitous deflation. Both academic models and arguments based on historical events are presented, along with analysis of the meaning of money, investor behavior, and practical techniques for obtaining the equity premium in one's portfolio.

If you have read my other books you know that the Law of Attraction always responds to persistent, committed action. It does so because it is an eternal, spiritual law that is impartial and universal. This means that it will respond to anyone who uses it correctly. And because this power is infinite you can use it to manifest anything you desire, including millions of dollars. In fact, throughout the years many people have used the Law of Attraction to win contests, sweepstakes, and even lottery jackpots. The common denominator among every lottery winner who has manifested a winning ticket is that they were committed to using positive affirmations every day until their desire became their reality. They understood the immense power of their spoken word, and they used it to transform their lives and circumstances. This book will inspire you to do the same. **WHY YOU SHOULD READ THIS BOOK** This book contains 300 of the most powerful affirmations for manifesting lottery prizes. These affirmations have been used by several lottery winners to win prizes ranging from \$50,000.00 to several million dollars. The affirmations in this book are designed to give you a winning edge because they were written to inspire you, awaken your hope, and empower you to manifest the prosperity and abundance you deserve. There are no limits to the amount of money you can manifest with the Law of Attraction. The only limits you have are those within your consciousness, and those limiting beliefs can be changed through the persistent use of positive affirmations. This book provides all the tools you will need to manifest your desires with the power of your spoken word. Once you transform your beliefs and expectations, all the wonderful things you desire will become

a part of your life. **WHAT THIS BOOK CONTAINS** This book begins with a Question and Answer Section that covers several of the most important questions about the effective use of affirmations. In addition to learning how to develop the habit of using affirmations daily, you will learn the best time to repeat affirmations, how often you should repeat them, how long it will take to change your beliefs, and a lot of other practical information. You will also learn how to harness the power of your spoken word through the use of two rarely used manifestation tools that can be used to increase your prosperity. In addition, you will learn how to double the effectiveness of your affirmations by incorporating a very important element that is often forgotten by most people who use them. After you read the Question and Answer Section, you will find 300 lottery affirmations that will provide you with a powerful, winning edge. By the time you finish reading this book you will be equipped with the tools necessary to transform your life with the dynamic power of your spoken word.

For fans of Captain Underpants or Sideways Stories from Wayside School, this new chapter book series is perfect for reluctant readers. When unlucky teacher Ms. Linda LaCrosse finds a magic lamp, she releases a genie--um, I mean, a Djinn--who agrees to grant each of her students ONE WISH! You might think this was fantastic, but it was not. It was a frightful idea! With magic wishes come hungry dinosaurs, stinky pizza, photographing paparazzi, and other huge mistakes. As the students of Classroom 13 are about to learn, you should be careful what you wish for. What would YOU do with one magic wish? The final chapter of each book encourages young readers to write their OWN chapter and send it in to the author, Honest Lee! The Disastrous Magical Wishes of Classroom 13 is the second title in a new chapter

Money isn't the same as treasure, and IQ isn't the same as smarts—An uplifting and joyous new novel hailed by Jacqueline Mitchard as “solid gold.” Perry L. Crandall knows what it's like to be an outsider. With an IQ of 76, he's an easy mark. Before his grandmother died, she armed Perry well with what he'd need to know: the importance of words and writing things down, and how to play the lottery. Most important, she taught him whom to trust—a crucial lesson for Perry when he wins the multimillion-dollar jackpot. As his family descends, moving in on his fortune, his fate, and his few true friends, he has a lesson for them: never, ever underestimate Perry Crandall.
