In Review: Marbles: Mania, Depression, Michelangelo and Me
Ellen's work has always been hilarious and sharp, but Marbles has an emotional resonance that shows new depth as an artist and a writer. This is an extremely personal, brave, and rewarding book.--Dan Savage, editor of It Gets Better and author of The Kid I have always admired Ellen Forney's humor and honesty, but Marbles is a major leap forward.

Read PDF Marbles Mania Depression Michelangelo And Me Ellen Forney

Cartoonist Ellen Forney explores the relationship between “crazy” and “creative” in this graphic memoir of her bipolar disorder, woven with stories of famous bipolar artists and writers. Shortly before her thirtieth birthday, Forney was diagnosed with bipolar disorder. Flagrantly manic and terrified that medications would cause her to lose creativity, she began a years-long struggle to find mental stability while retaining her passions and creativity. Searching to make sense of the popular concept of the crazy artist, she finds inspiration from the lives and work of other artists and writers who suffered from mood disorders, including Vincent van Gogh, Georgia O’Keeffe, William Styron, and Sylvia Plath. She also researches the clinical aspects of bipolar disorder, including the strengths and limitations of various treatments and medications, and what studies tell us about the conundrum of attempting to “cure” an otherwise brilliant mind. Darkly funny and intensely personal, Forney’s memoir provides a visceral glimpse into the effects of a mood disorder on an artist’s work, as she shares her own story through bold black-and-white images and evocative prose.

Rock Steady: Brilliant Advice From My Bipolar Life is the eagerly awaited sequel/ companion book to Forney’s 2012 best-selling graphic memoir, Marbles: Mania, Depression, Michelangelo, and Me. Whereas Marbles was a memoir about her bipolar disorder, Rock Steady turns the focus outward, offering a self-help survival guide of tips, tricks and tools by someone who has been through it all and come through stronger for it.

I Love Led Zeppelin is a long-awaited collection of strips by

the Harvey and Eisner Award-nominated cartoonist Ellen Forney. This book includes full-page comics published in prestigious weeklies such as the L.A. Weekly and Seattle's The Stranger, as well as the leading feminist magazine Bust, and the Oxford American. Her strips are characterized by bold, sensual brushstrokes and striking images of powerful, butt-kicking women. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Calibri}

A poignant, heart-lifting graphic memoir about anorexia, eating disorders and the journey to recovery Like most kids, Katie was a picky eater. She ' d sit at the table in silent protest, hide uneaten toast in her bedroom, listen to parental threats that she ' d have to eat it for breakfast. But in any life a set of circumstance can collide, and normal behaviour might soon shade into something sinister, something deadly. Lighter Than My Shadow is a hand-drawn story of struggle and recovery, a trip into the black heart of a taboo illness, an exposure of those who are so weak as to prey on the vulnerable, and an inspiration to anybody who believes in the human power to endure towards happiness. ' Even at its most heartbreaking it never feels sombre ... Inspiring, plucky and, in the end, consoling, it ' s hard to put down ' Observer

After discovering that who she thought was her father was indeed not, Portland-based "zinester" Nicole Georges embarks upon a journey of identity.

How does one deal with a diagnosis of Parkinson ' s disease at the age of forty-three? My Degeneration, by former Anchorage Daily News staff cartoonist Peter Dunlap-Shohl, answers the question with humor and passion, recounting the author ' s attempt to come to grips with the " malicious whimsy " of this chronic, progressive, and disabling disease.

Read PDF Marbles Mania Depression Michelangelo And Me Ellen Forney

This graphic novel tracks Dunlap-Shohl ' s journey through depression, the worsening symptoms of the disease, the juggling of medications and their side effects, the impact on relations with family and community, and the raft of mental and physical changes wrought by the malady. My Degeneration examines the current state of Parkinson ' s care, including doctor/patient relations and the repercussions of a disease that, among other things, impairs movement, can rob patients of their ability to speak or write, degrades sufferers ' ability to deal with complexity, and interferes with the sense of balance. Readers learn what it ' s like to undergo a dramatic, demanding, and audacious bit of high-tech brain surgery that can mysteriously restore much of a patient ' s control over symptoms. But My Degeneration is more than a Parkinson ' s memoir. Dunlap-Shohl gives the person newly diagnosed with Parkinson ' s disease the information necessary to cope with it on a day-to-day basis. He chronicles the changes that life with the disease can bring to the way one sees the world and the way one is seen by the wider community. Dunlap-Shohl imparts a realistic basis for hope—hope not only to carry on, but to enjoy a decent quality of life.

Part memoir, part medical cautionary tale, Dumb tells the story of how an urban twentysomething copes with the everyday challenges that come with voicelessness. Webber adroitly uses the comics medium to convey the practical hurdles she faced as well as the fear and dread that accompanied her increasingly lonely journey to regain her life. Her raw cartooning style, occasionally devolving into chaotic scribbles, splotches of ink, and overlapping montages, perfectly captures her frustration and anxiety. But her ordeal ultimately becomes a hopeful story. Throughout, she learns to lean on the support of her close friends, finds
