In 1950s Quebec, French and English tolerate each other with precarious civility--much like Maggie Hughes' parents. Maggie's English-speaking father has ambitions for his daughter that don't include marriage to the poor French boy the next farm over. But Maggie's heart is captured by Gabriel Ph enix. When she becomes pregnant at fifteen, her parents send the baby Elodie to an orphanage where she receives horrible treatment. Seventeen years later, Maggie, married to a businessman eager to start a family, cannot forget the daughter she was forced to abandon, and a chance reconnection with Gabriel spurs a wrenching choice. As time passes, the stories of Maggie and Elodie intertwine but never touch, until Maggie realizes she must take what she wants from life and go in search of her long-lost daughter, finally reclaiming the truth that has been denied them both.

In the spirit of The Orphan Train and Before We Were Yours, a historical debut about a nurse who chooses to save a baby's life, and risks her own in the process, exploring the ties of motherhood and the little-known history of Coney Island and America's first incubators. A nurse's choice. A daughter's search for answers. New York City, 1926. Nurse Althea Anderson's heart is near breaking when she witnesses another premature baby die at Bellevue Hospital. So when she reads an article detailing the amazing survival rates of babies treated in incubators in an exhibit at Luna Park, Coney Island, it feels like the miracle she has been searching for. But the doctors at Bellevue dismiss Althea and this unconventional medicine, forcing her to make a choice between a baby's life and the doctors' wishes that will change everything. Twenty-five years later, Stella Wright is falling apart. Her mother has just passed, she quit a job she loves, and her marriage is struggling. Then she discovers a letter that brings into question everything she knew about her mother, and everything she knows about herself. The Light of Luna Park is a tale of courage and an ode to the sacrificial love of mothers.

With her father away at war to fight Hitler, a young girl gains strength by joining her community in battling polio in this Parents' Choice Silver Honor Book based on the 1944 epidemic and the "Miracle of Hickory" Hospital in Hickory, North Carolina. Ann Fay Honeycutt accepts the role of "man of the house" when her father leaves because she wants to do her part for the war. She's doing well with the extra responsibilities when a frightening polio epidemic strikes, crippling many local children. Her town of Hickory responds by creating an emergency hospital in three days. Ann Fay reads each issue of the newspaper for the latest news of the epidemic. But soon she discovers for herself just how devastating polio can be. As her challenges grow, so does her resourcefulness. In the face of tragedy, Ann Fay discovers her ability to move forward. She experiences the healing qualities of friendship and explores the depths of her own faithfulness to those she loves--even to one she never expected to love at all.

In the spring of 1914, a group of students at the Slade School of Art have gathered for a life-drawing class. Paul Tarrant is easily distracted by an intriguing fellow student, Elinor Brooke, but watches from afar when a well-known painter catches her eye. After World War I begins, Paul tends to the dying soldiers from the front line as a Belgian Red Cross volunteer, but the longer he remains, the greater the distance between him and home becomes. By the time he returns, Paul must confront not only the overwhelming, perhaps impossible challenge of how to express all that he has seen and experienced, but also the fact that life, and love, will never be the same for him again.

This book examines the social, economic and political issues of public health provision in historical perspective. It outlines the development of public health in Britain, Continental Europe and the United States from the ancient world through to the modern state. It includes discussion of: * pestilence, public order and morality in pre-modern times * the Enlightenment and its effects * centralization in Victorian Britain * localization of health care in the United States * population issues and family welfare * the rise of the classic welfare state * attitudes towards public health into the twenty-first century.

The author of Fighting for Spain delivers "a military history focused on three major battles, Brunete, Belchite and Teruel . . . meticulously researched" (Historical Novel Society). Why did the Spanish Republic lose the Spanish Civil War--and could the Republic have won? These are the key questions Alexander Clifford addresses in this in-depth study of the People's Army and the critical battles of Brunete, Belchite and Teruel. These battles represented the Republic's best chance of military success, but after bitter fighting its forces were beaten back. From then on, the Republic, facing the superior army of Franco and the Nationalists, aided by Germany and Italy, faced inevitable defeat. This tightly focused and perceptive account of the military history of the Republic and its army is fascinating reading. As well as providing a broad overview of the strategy and tactics of the People's Army and its Nationalist opponents, Alexander Clifford quotes vivid eyewitness testimony to give the reader a direct insight into the experience of the frontline soldiers on both sides during these three critical battles. Their recollections reveal to the reader what it was like to fight in the scorching heat of the plains around Brunete, in the shattered streets of Belchite--still ruined to this day--and in the frozen hills of Teruel.

My brother's tears left a delicate, clean line on his face. I stroked his cheek, whispered, it's really you...

It is 1915 and the First World War has only just begun. 17 year old Sasha is a well-to-do, sheltered-English girl. Just as her brother Thomas longs to be a doctor, she wants to nurse, yet girls of her class don't do that kind of work. But as the war begins and the hospitals fill with young soldiers, she gets a chance to help. But working in the hospital confirms what Sasha has suspected--she can see when someone is going to die. Her premonitions show her the brutal horrors on the battlefields of the Somme, and the faces of the soldiers who will die. And one of them is her brother Thomas. Pretending to be a real nurse, Sasha goes behind the front lines searching for Thomas, risking her own life as she races to find him, and somehow prevent his death.
