Insert the enclosed small O-rings into the 1/8" spacers. The spacers mount between the backplate and heads. Secure the backplate to the engine using the spacers with the O-ring facing the engine (Figure 5). Before attaching the backplate, check that the carburetor is inserted fully into the intake manifold.

Mikuni Corporation**

Mikuni's HS40 carburetor is

File Type PDF Mikuni Carburetor Installation

fitted with an accelerator pump. The purpose of the pump is to inject fuel into the throat of the HS40 when the throttle is opened. As the throttle is opened, especially at low rpm, air velocity through the carburetor drops and the mixture naturally becomes leaner. Fuel from the pump maintains a more correct fuel/air

carb, air box adapter and instructions. Twin Cam uses the stock oval chrome cover.

Mikuni American Corporation

About half of Mikuni/Twin Cam installations have an interference between the cylinder fins and the float bowl of the HSR carburetor. A small portion of the cylinder fin material must be removed from both front and rear cylinders to clear the float bowl. Failure to make this modification can result in alignment and wear problems.

Mikuni RS manual - Moto TH

Mikuni Carb Kit Installation and Tuning Instructions - Updated 2/4/20. These instructions are primarily for the dual carb kits as used on Volvo 544, 1800, 122, and 140, MGB's, TR4's, etc. where they are used as a direct replacement for SU or ZS carbs. Most of the information is applicable to any dual installation and much of it is also relevant to single, triple and quad installations.
