An in-depth exploration of documentary forgery at the turn of the first millennium Forgery and Memory at the End of the First Millennium takes a fresh look at documentary forgery and historical memory in the Middle Ages. In the tenth and eleventh centuries, religious houses across Europe began falsifying texts to improve local documentary records on an unprecedented scale. As Levi Roach illustrates, the resulting wave of forgery signaled major shifts in society and political culture, shifts which would lay the foundations for the European ancien régime. Spanning documentary traditions across France, England, Germany and northern Italy, Roach examines five sets of falsified texts to demonstrate how forged records produced in this period gave voice to new collective identities within and beyond the Church. Above all, he indicates how this fad for falsification points to new attitudes toward past and present—a developing fascination with the signs of antiquity. These conclusions revise traditional master narratives about the development of antiquarianism in the modern era, showing that medieval forgers were every bit as sophisticated as their Renaissance successors. Medieval forgers were simply interested in different subjects—the history of the Church and their local realms, rather than the literary world of classical antiquity. A comparative history of falsified records at a crucial turning point in the Middle Ages, Forgery and Memory at the End of the First Millennium offers valuable insights into how institutions and individuals rewrote and reimagined the past.

Michelangelo in the New Millennium addresses the mobility and flexibility of Michelangelo ' s art regarding placement and intention, considers the artist ' s late papal painting commissions, and probes deeper into his early religious works.

Traces the five-hundred year history and wide-ranging influence of the Roman historian's unflattering book about the ancient Germans that was eventually extolled by the Nazis as a bible.

Of all the civilisations existing in the year 1000, that of Western Europe seemed the unlikeliest candidate for future greatness. Compared to the glittering empires of Byzantium or Islam, the splintered kingdoms on the edge of the Atlantic appeared impoverished, fearful and backward. But the anarchy of these years proved to be, not the portents of the end of the world, as many Christians had dreaded, but rather the birthpangs of a radically new order. MILLENNIUM is a stunning panoramic account of the two centuries on either side of the apocalyptic year 1000. This was the age of Canute, William the Conqueror and Pope Gregory VII, of Vikings, monks and serfs, of the earliest castles and the invention of knighthood, and of the primal conflict between church and state. The story of how the distinctive culture of Europe - restless, creative and dynamic - was forged from out of the convulsions of these extraordinary times is as fascinating and as momentous as any in history.

Harold Bloom, the celebrated intellectual and literary critic, addresses our millennial preoccupations – angels, dreams and near-death experiences

Part blistering espionage thriller, part riveting police procedural, and part piercing expos é on social injustice, this second book in the Millennium series is a masterful, endlessly satisfying novel. Mikael Blomkvist, crusading publisher of the magazine Millennium, has decided to run a story that will expose an extensive sex trafficking operation. On the eve of its publication, the two reporters responsible for the article are murdered, and the fingerprints found on the murder weapon belong to his friend, the troubled genius hacker Lisbeth Salander. Blomkvist, convinced of Salander ' s innocence, plunges into an investigation. Meanwhile, Salander herself is drawn into a murderous game of cat and mouse, which forces her to face her dark past.

A Cultural History of the Atlantic World, 1250–1820 explores the idea that strong links exist in the histories of Africa, Europe and North and South America. John K. Thornton provides a comprehensive overview of the history of the Atlantic Basin before 1830 by describing political, social and cultural interactions between the continents' inhabitants. He traces the backgrounds of the populations on these three continental landmasses brought into contact by European navigation. Thornton then examines the political and social implications of the encounters, tracing the origins of a variety of Atlantic societies and showing how new ways of eating, drinking, speaking and worshipping developed in the newly created Atlantic World. This book uses close readings of original sources to produce new interpretations of its subject.

Discover the books that changed the way the world reads crime - Stieg Larsson's phenomenal global blockbuster, the Millennium Trilogy The Girl with the Dragon Tattoo: Forty years ago, Harriet Vanger disappeared from a family gathering on the island owned by the powerful Vanger clan. Her uncle employs disgraced journalist Mikael Blomkvist and tattooed hacker Lisbeth Salander to investigate. When the pair link Harriet's disappearance to a number of grotesque murders, they begin to unravel a dark family history... The Girl Who Played With Fire: Lisbeth Salander is now a wanted woman, on the run from the police. Mikael Blomkvist, editor-in-chief of Millennium magazine, is trying to prove her innocence. Yet Salander is more avenging angel than helpless victim. She may be an expert at staying out of sight - but she has ways of tracking down her most elusive enemies. The Girl Who Kicked the Hornets' Nest: Salander is plotting her final revenge - against the man who tried to kill her, and against the government institutions that very nearly destroyed her life. With the help of journalist Mikael Blomkvist and his researchers at Millennium magazine, Salander is ready to fight to the end. Stieg Larsson's phenomenal trilogy is continued in The Girl in the Spider's Web and The Girl Who Takes an Eye for an Eye by David Lagercrantz.
