The Sphinx books combine a few of my favorite myths, and there are plenty of monsters, demigods, immortals and even some humans to keep you entertained. Beyond that, there are themes of redemption and hope, coming of age and learning what it really means to be loyal.

In the realm of the dead, there are no lies. Hope Nicholas is desperate to believe that the truth will set her free from the bindings of Apollo's curse. But to get the truth, she must travel to the Underworld, a feat near impossible for the living. The gods there have their own agendas and, forced to forge alliances with the most unlikely allies, Hope will find that death is not the worst torment of the Underworld. Athan Michael spent months chasing Hope, only to have her disappear once again. And when he discovers her destination, he knows the treacherous journey to the Underworld is one he cannot take alone. Forced to put aside his past with Xan and Dahlia, the three demigods embark on their own quest. But the past will not stay buried, and Athan must decide how much he's willing to sacrifice to help Hope break the curse. Told in dual points of view, Myths of Immortality is a tense, action-packed story that will leave you begging for the next installment of The Sphinx series.

An Ancient Curse. An Immortal Monster. A Forbidden Love. Seventeen year-old Hope Nicholas has spent her entire life on the run. With her mom, she's traveled from town to town, barely staying long enough to meet anyone, let alone make friends. If she wants to stay alive, she'll have to keep it that way. When her mother is murdered, Hope is left orphaned and alone. Is this the fulfillment of Apollo's curse? Is Hope, too, being hunted? Hope flees again, staying hidden now more important than ever. But learning to navigate mean girls, demigods, and shadow-monsters from the Underworld is nothing compared to enigmatic and persistent new-boy, Athan Michael. In a modern world still ruled by the Greek Gods, being a monster is more than a curse. It is a death sentence.

This book, on the fifth-century BC Athenian vase-painter, Sotades, concentrates on the inherent meaning of the imagery of these decorated vases. It argues that, contrary to widely held conceptions, there is an underlying unity of meaning in Greek vases and their imagery, a unity rooted in the religious beliefs and ritual practices of the society from which they spring.

Nicholas Flamel appeared in J.K. Rowling's Harry Potter—but did you know he really lived? And his secrets aren't safe! Discover the truth in book six of Michael Scott's New York Times bestselling series the Secrets of the Immortal Nicholas Flamel. The Location: The home of the Elders. The Time: The last day of Nicholas and Perenelle Flamel's long existence. The two that are one must become the one that is all. One to save the world, one to destroy it. Sophie and Josh Newman traveled ten thousand years into the past following Dr. John Dee and Virginia Dare to the home of the Elders at Danu Talis. But this is no ordinary island--it is the legendary city of Atlantis, and Scathach, Prometheus, Palamedes, Shakespeare, Saint-Germain, and Joan of Arc are also there. Here, as the Flamels take their final breaths, the battle for the world begins and ends. Except no one is sure what--or who--the twins will be fighting for.

NATIONAL BESTSELLER • Two Egypt experts posit a revolutionary theory: The Sphinx and other great Egyptian monuments are older than common history books tell us and are arranged in such a way as to send us a message from the silent past. Guardian of the ancient mysteries, the keeper of secrets . . . For thousands of years the Great Sphinx of Egypt has gazed toward the east, its eyes focused on eternity, reading a message in the stars that mankind has long forgotten. And today as our civilization stands poised at the end of a great cycle, it is a message that beckons insistently to be understood. All the clues are in place. Geology and archeo-astronomy have already indicated that the lion-bodied Sphinx may be vastly older than Egyptologists currently believe, dating not from 2500 B.C., but from 10,500 B.C.—the beginning of the astrological Age of Leo. And we now know that the three pyramids of Giza, standing on high ground half a mile to the west of the Sphinx, are in fact a precise map of the three stars of Orion's belt, formed in fifteen million tons of solid stone. Are these monuments trying to tell us something? And, if so, what? In *The Message of the Sphinx*, Robert Bauval and Graham Hancock present a tour de force of historical and scientific detective work that unravels the millennial code embodied in these structures. Using sophisticated computer simulations of ancient skies, they unravel the riddle of the Sphinx, and they present a startling new theory concerning the enigmatic Pyramid Texts and other archaic Egyptian scriptures. Their discoveries lead the authors to this question: Does mankind have a rendezvous with destiny—a rendezvous not in the future, but in the distant past, at a precise place and time? The secrets can be kept no longer. *The Message of the Sphinx* brings them to light.

Discussions of apocalyptic thought and its sources in the ancient Near East, particularly Mesopotamia, have a long scholarly history, with a renewed interest and focus in the recent decades. Outside Assyriological scholarship as well, studies of the apocalyptic give significant credit to the ancient Near East, especially Babylonia and Iran, as potential sources for the manifestations of this phenomenon in the Hellenistic period. The emphasis on kingship and empire in apocalyptic modes of thinking warrants special attention paid to the regal art of ancient Mesopotamia and adjacent areas in its potential to express the relevant notions. In this book, Mehmet-Ali Ata demonstrates the importance of visual evidence as a source for apocalyptic thought. Focusing on the so-called investiture painting from Mari, he relates it to parallel evidence from the visual traditions of the Assyrian Empire, ancient Egypt, and Hittite Anatolia.

When all your life is darkness, can you even recognize the light? As a daughter of the goddess Eris, discord and shame are Dahlia's constant companions. Her only companions. While she craves love and friendship -- or even just a sense of belonging -- those are the very things her presence destroys. Until . . . A mysterious stranger rescues her from a violent attack and offers her the unattainable: a safe haven. With the seductive son of Eros begging for her affection, Dahlia desperately believes she's finally found the acceptance she's always craved. But how can it end well -- for her or the others? After all, it's impossible to change who you are. Join Dahlia's heart-wrenching struggle to overcome the demons of her past, as she discovers the profound truths that will grant her the power to seize her future. Dealing with universal struggles of self-worth and self-esteem, Daughter of Darkness is a heartwarming story of triumph. While it is a companion story to The Sphinx series, it can be enjoyed independently.

From a lost city in the desert to a cave alight with thousands of

glowworms, learn about some of the most unusual places on earth and the myths, legends, and history behind each of them! Looking at places like The Skeleton Coast in Namibia, Wizard Island in the United States, and The Fairy Tale Route in Germany, *The Dark Hedges and Other Magical Places that Really Exist* takes young readers on a journey around the world to real places that sound straight out of fantasy. Featuring both natural and man-made wonders, this travel book combines history and storytelling to explore the far reaches of the earth.

Interpretations of Greek Mythology, first published in 1987, builds on the innovative work of Walter Burkert and the 'Paris school' of Jean-Pierre Vernant, and represents a renewal of interpretation of Greek mythology. The contributors to this volume present a variety of approaches to the Greek myths, all of which eschew a monolithic or exclusively structuralist hermeneutic method. Specifically, the notion that mythology can simply be read as a primitive mode of narrative history is rejected, with emphasis instead being placed on the relationships between mythology and history, ritual and political genealogy. The essays concentrate on some of the best known characters and themes – Oedipus, Orpheus, Narcissus – reflecting the complexity and fascination of the Greek imagination. The volume will long remain an indispensable tool for the study of Greek mythology, and it is of great interest to anyone interested in the development of Greek culture and civilisation and the nature of myth.
