oriented.” --Ralph J. Acampora, CMT, Director of Technical Analysis Studies, New York Institute of Finance “A fantastic, insightful book full of meticulously compiled statistics about anomalies that surround option expiration. Not only does Augen present a set of effective trading strategies to capitalize on these anomalies, he walks through the performance of each across several expirations. His advice is practical and readily applicable: He outlines common pitfalls, gives guidance on timing your executions, and even includes code that can be

Literature on derivatives trading and stands out for being extremely well written, clear, concise, and very low on jargon--perfect for traders looking to evolve their equity option strategies." --Nazzaro

Angelini, Principal, Spearpoint Capital "Instead of considering macro-time strategies that take weeks to unfold, Jeff Augen is thinking micro here--hours or days--specifically the days or hours right before expiration, and harnessing grinding, remorseless options decay for profit. He builds a compelling case for the strategy here. The concept of using ratio
