Sin dalla loro nascita, le Esposizioni Universali sono state lo specchio della visione di progresso del sistema economico mondiale. In origine, tale obiettivo veniva esplicitato attraverso rappresentazioni tese a celebrare la capacità dell'ingegno umano nel superare ogni vincolo che la natura gli poneva di fronte. L'Esposizione cinese è stata la più straordinaria mai realizzata sull'urbanizzazione, e ha lanciato al mondo, Italia compresa, una sfida cruciale: quale modello di città si può immaginare in un prossimo futuro? L'Italia ha colto questa sfida interpretando un Padiglione che sa di "città del futuro", intitolato "La città dell'uomo", in cui l'uomo torna ad essere protagonista, dove il concetto di vivibilità assume un ruolo predominante. Un edificio che ha utilizzato nuovi materiali eco-compatibili, rispettosi dell'ambiente, proiettati verso il futuro. Del resto, il tema stesso dell'Expo lanciava questa sfida. Un Padiglione che è subito assunto a simbolo del saper fare italiano rinnovando così nell'immaginario dei visitatori la tradizione dell'architettura espressa dall'Italia. Ed è stata sicuramente l'architettura una delle chiavi di lettura privilegiate dove ricercare nuovi germogli di fiducia del futuro. Un futuro in grado di immaginare le nuove comunità, le better cities e la sua better life in rapporto con il territorio e con il mondo. Per questo abbiamo voluto dedicare un intero mese della partecipazione italiana all'Expo di Shanghai proprio all'architettura. Nel mese di settembre, architetti e studiosi internazionali si sono confrontati sulle sfide dell'eco-compatibilità e dell'eco-sostenibilità. Nello stesso mese abbiamo ospitato la mostra "L'Architettura italiana per la Città cinese": un esempio concreto di quanto l'Italia possa dire e fare per spostare più in là l'orizzonte di un futuro in cui la ricerca di nuovi materiali ecosostenibili all'architettura, gioca un ruolo decisivo. Se qualcosa rimarrà di questa Expo dei record sarà anche l'immenso capitale umano e conoscitivo, che ha avuto modo di confrontarsi nel Padiglione italiano su temi attuali e urgenti, quali quelli ispirati dal tema generale dell'Expo, "Better city, Better life". Il successo della nostra partecipazione sarà ancora più importante se anche grazie alle nostre proposte, l'idea di una città e di una vita migliore sarà più chiara e realizzabile. Credo che in nessun luogo al mondo oggi più che in Cina ci si stia ponendo il problema della necessità di progettare delle città armoniche. Città ideali studiate fin dal principio per l'uomo. Città che non smettono mai di sorprendere, mescolando da sempre con equilibrio economia, capolavori architettonici, benessere, gusto, rispetto ambientale. Una città 'tipo' che l'Italia, più di altri, è in grado di proporre con forza, perché è proprio il nostro Paese e il nostro passato il punto da cui cominciare a guardare per trovare ispirazione. La nostra architettura è in grado di fornire le risposte giuste e ringrazio per questo gli architetti Franco Purini e Uberto Siola, curatori della mostra sull'architettura italiana per la città cinese che è stata l'occasione per condividere idee e progetti con i nostri amici cinesi e far capire loro che quello cui mirano - una città più armonica è la nostra città.

Math 5 A

Czacu's Dracula offers the most authoritative scholarly biography of Vlad III the Impaler (d. 1476), including how his imagery evolved from

contemporary to modern times.

A History of Siena provides a concise and up-to-date biography of the city, from its ancient and medieval development up to the present day, and makes Siena's history, culture, and traditions accessible to anyone studying or visiting the city. Well informed by archival research and recent scholarship on medieval Siena and the Italian city-states, this book places Siena's development in its larger context, both temporally and geographically. In the process, this book offers new interpretations of Siena's artistic, political, and economic development, highlighting in particular the role of pilgrimage, banking, and class conflict. The second half of the book provides an important analysis of the historical development of Siena's nobility, its unique system of neighborhood associations (contrade) and the race of the Palio, as well as an overview of the rise and fall of Siena's troubled bank, the Monte dei Paschi. This book is accessible to undergraduates and tourists, while also offering plenty of new insights for graduate students and scholars of all periods of Sienese history.

The Roman emperor Nero is remembered by history as the vain and immoral monster who fiddled while Rome burned. Edward Champlin reinterprets Nero's enormities on their own terms, as the self-conscious performances of an imperial actor with a formidable grasp of Roman history and mythology and a canny sense of his audience. Nero murdered his younger brother and rival to the throne, probably at his mother's prompting. He then murdered his mother, with whom he may have slept. He killed his pregnant wife in a fit of rage, then castrated and married a young freedman because he resembled her. He mounted the public stage to act a hero driven mad or a woman giving birth, and raced a ten-horse chariot in the Olympic games. He probably instigated the burning of Rome, for which he then ordered the spectacular punishment of Christians, many of whom were burned as human torches to light up his gardens at night. Without seeking to rehabilitate the historical monster, Champlin renders Nero more vividly intelligible by illuminating the motives behind his theatrical gestures, and revealing the artist who thought of himself as a heroic figure. Nero is a brilliant reconception of a historical account that extends back to Tacitus, Suetonius, and Cassius Dio. The effortless style and artful construction of the book will engage any reader drawn to its intrinsically fascinating subject.

From this major author comes a totally unique history of the twentieth century. Eschewing the traditional model for histories of this kind – blow-by-blow political narratives typically overloaded with detail - Jeremy Black offers us instead a brilliant thematic account of the last 100 years with the environment and the continuing strength of religious belief at its centre. Looking back to the 1910s and 1920s, Black begins with "the greatest issue of all" – the natural environment and its destruction, and moves to show how our world been transformed by urbanisation and development. Amazing developments took place across the century: men walked on the moon, the internet revolutionised communications; advances in health and medicine; developments in manufacturing and technology; economic globalization – all have changed the way different parts of the world related to each other. How have these revolutionary changes impacted on religion and politics? In the final sections of the book, Black looks at the persistence and growing extremism in religious belief, how change creates instability and wars, and how power blocs emerged and collapsed in response to all these developments. This is twentieth century world history on a truly global scale. The Twentieth Century World forces us to rethink the way we view the past, and offers us a new way to understand the present.

MELANIA TRUMP - THE BIOGRAPHY First Lady of the United States Melania Trump is the spouse of President Donald J. Trump and the mother of Barron Trump. She was born on April 26, 1970, in Novo Mesto, Slovenia. She is the second first woman born outside of the United States, and she is the

main first woman to turn into a naturalized U.S. resident. Like the main women before her, Mrs. Trump has transformed history. As the first woman, she keeps on filling in as a fervent promoter for youngsters and commits her time and endeavors to assist youngsters with exploring the numerous issues they face in an always evolving society. In 2018, she reported BE BEST, a mindfulness crusade that endeavors to advance a world for kids dependent on sound living, thoughtfulness, and regard. The activity comprises of three columns speaking to key regions of worry for Mrs. Trump: prosperity, including the social and enthusiastic wellbeing of kids; web-based media, zeroing in on understanding it's positive just as pessimistic consequences for youngsters; and narcotic maltreatment, endeavoring to shield the most helpless from the impacts of medication misuse while teaching individuals of any age about the impending impacts of narcotics. Since its dispatch, BE BEST has influenced neighborhood networks the nation over and the world, spreading its message of consideration and focusing on effective projects and administrations that help kids and families with the help and apparatuses they need to flourish. Mrs. Trump proceeds to develop and grow her mission dependent on exploration and data gained from her numerous visits to schools, medical clinics, associations, and organizations, and from addressing youngsters straightforwardly about their thoughts and concerns. In all that she does, Mrs. Trump puts kids at the cutting edge of her plan. Regardless of whether in the United States or abroad, she has had a constructive outcome on the lives of youngsters, particularly those in weak networks the world over. She has ventured to every part of the United States across the nation meeting the country's childhood and groups, all things considered. She has set out on excursions to in excess of nine nations, remembering a few nations for Africa on her first significant independent global outing. She has met with in excess of thirty unfamiliar negotiators and heads of state or their life partners to trade thoughts on the difficulties youngsters are confronting everywhere in the world. The principal woman additionally works intimately with the White House Historical Association in doing a large number of the ageless customs that are a fundamental piece of White House history.
