This illustrated guide is packed with interesting facts and follows the history of the famous Harley-Davidson company and the development of its famous bikes, which have earned a special place in the hearts of enthusiasts everywhere. The story dates from 1903 when Bill Harley and the Davidson brothers, with no thought of fame or fortune, decided to build a motorcycle that really worked. So successful was it, that it led to the gradual formation of a company that has survived through good times and bad. Through good times and bad, losing and winning back police contracts, as well as weathering various other vicissitudes, the company has achieved lasting success. In the end, Harley-Davidson came to the ultimate decision of giving its customers what they really wanted, not by providing year-on-year innovations, but by remaining true to the Founders' original concept. The result, as everyone knows, are bikes of mythic status, imbued with a mysterious quality of their own and generating a passion in enthusiasts amounting almost to a love affair. The name has come to personify America and is up there alongside Coca-Cola, Ford and McDonald's. The bikes are described in detail, not only in mechanical terms, but also with glorious photographs, and will be of interest to everyone who loves motorbikes: even aficionados of Japanese and European bikes, who have never even ridden a Harley-Davidson, will be able to recognize the unique marriage of style and nostalgia and the fact that there are no other bikes quite like them.

The Harley-Davidson Story: Tales from the Archives is a fascinating, visually driven overview of the motor company's rich story, created in cooperation with the Harley-Davidson Museum. The story of Harley-Davidson is a classic American tale of spirit, invention, and the right idea at the right time. From its beginning in a small Milwaukee shed in 1903, William Harley and his cousins, the Davidson brothers, set in motion what would eventually become the world's most iconic motorcycle company. While other motorcycle companies rose and fell through the teens and 1920s, Harley went from strength to strength, whether introducing its first V-twin motor or dominating race tracks across America. The Milwaukee Miracle even prospered during WWII, building war bikes for the armed forces. By the 1950s, they'd buried their last American-built competitor, Indian, and gained a hold over the US market that they maintain to this day. A remarkable story deserves a remarkable space to recount it. Such is the Harley-Davidson Museum in Milwaukee, which opened in 2009. Harley-Davidson partnered with Motorbooks to create this book relaying Harley-Davidson's story, as told through the museum's displays and archive assets.

The Torrance Police Department dates to May 23, 1921, when city trustees appointed Ben Olsen as city marshal and, shortly thereafter, hired Byron Anderson as night watchman. The efforts of these men were devoted to dealing with thieves, keeping the peace, and declaring war on speedsters. From such humble beginnings, the Torrance Police Department has grown into the fourth largest municipal law enforcement agency in Los Angeles County. Its position as the anchoring police force of the South Bay section of the county and its reputation as an innovator in crime fighting have been firmly established over time. Today, with a total of 242 sworn and 100 support personnel, the highly regarded Torrance Police Department serves more than 142,000 inhabitants in 21 square miles.

It is a long, long way from Faith to Trust in the Lord. Some people spend their whole life's journey and never get there, while others seem to make it in a very short time. There is a story of a man laden with troubles. As he walks a canyon ledge deep in thought, he tries to figure out how to solve them. As he gazes over the canyon below, he begins kicking small stones over the ledge and watches them as they fall for what seems like a thousand feet. He continues to watch as one by one, they crash onto the canyon floor. Consumed with his troubles, he kicks another stone, but this time he loses his balance and falls. He tries to grab the ledge where he stood, but his hands are unable to take hold of anything that can save him. Directly below him, is a small branch growing out of the canyon wall. He falls on it and he manages to get a firm grip just in the nick of time. But now he is hanging by his hands over the rocky canyon floor. He has no idea how long the small branch will support him or how long he can hang on. He looks at the canyon ledge where he once stood and sees it is about fifteen feet above him and that the face is smooth rock. He is in a

remote place in the wilderness and he knows there is no chance of someone coming by or hearing his cries for help. He knows he cannot climb up and he knows if he lets go, he will fall to his death. As he hangs there he cries out for the Lord to come and save him. The heavens seem to be silent for what seems an eternity, as he contemplates what will happen if he lets go or loses his grip. Over and over he cries out, "Lord, help me please, please, help me!" Then he hears a voice. It's not a loud voice. What he hears doesn't come with thunder and lightning, nor does it come as an earthquake. But instead, it comes as a small, familiar voice, almost as if it were from inside him. It is filled with love, peace and comfort. Amidst all his problems, his focus changes to the engulfing love he now feels inside. The voice says, "Do you believe in the Lord?" "Oh yes!" came his reply. "You know I believe, Lord!" "Do you believe that I am the Lord?" "Oh yes Lord! I can tell by the feeling within me, that it is you, Lord!" "Do you believe that I can save you?" came the voice for a third time. "Oh yes!" came his reply! "You know I believe you can save me!" Then the voice came again and said, "Then let go of the branch." In each of our lives comes that moment where we find that merely having faith in the Lord is no longer enough. But moving from hanging on--or believing, to being able to let go of the branch--or trusting, requires a willingness to take the Lord at His word. As you seek Him, He will bring you to that point, where you are more willing to let go of the branch than you are to keep hanging on. It begins as a step by step, personalized journey with Him that is called, From Faith to Trust. This book is a collection of true motorcycle adventures where the author, a retired officer, a High Priest and Police Chaplain, travels through Mexico, Guatemala, British Honduras-Belize, the Yucatan Peninsula, the Gulf of Mexico, the Pacific Coast Highway, the Baja, and the 2010 Hoka Hey, from Key West, Florida, to North Pole, and Homer, Alaska. Through his life experiences, his police career and each of these motorcycle adventures, he is led closer and closer to his best Friend, the Lord. He now shares the motorcycle stories and the seventy secrets he learned as he rode and slept out, the thousands of miles he traveled. All together, they answer the question, What Would You Give to Never be Afraid Again.

Now updated to include the latest motorcycles, this definitive Harley-Davidson history is filled with "inside" information and valuable data. Features Harley-Davidson's entire production history, with special information for restoring any of the classic models. 284 illustrations, 14 in color.

The Connecticut State Police Department was created in 1903 to preserve the peace, arrest convicting offenders, and stay alert to liquor and gambling violations, especially those on Sundays. The birth of the department came at time when temperance leagues began forming across the country. Connecticut State Police is an account of a

department and its rise to battle, among other things, "demon rum." Today, troopers cover approximately half of the towns in the state of Connecticut and all of its highways. The CSP became successful and developed a reputation among the law enforcement community as one of the best in the nation. Connecticut state police grew in their responsibilities and expectations, taking on the duties of fire marshal, motor vehicle testing, and dozens of other important and influential agency tasks. This collection of photographs covers the many people, events, and tragedies that have shaped this respected department.

Keeping the Peace will be an important resource for social historians, legal academics and others interested in changing approaches to police administration and the evolution of modern law enforcement procedures.
