In Peoples and Cultures of the World, Professor Edward F. Fischer reveals the extraordinary power of anthropology—and his subspecialty, cultural anthropology—as a tool to understand the world's varied human societies, including our own. As a science that incorporates many disciplines, including psychology, biology and genetics, politics, economics, and religion, anthropology probes human behavior from nearly every possible perspective.

Peoples and Cultures of the World | The Great Courses

“ Peoples ” or “ cultures ” are the preferred terms when referring to ethnic identities; “ tribe ” —a word sometimes applied to African peoples or societies—is an inappropriate, even inaccurate term, and should be avoided.

The development of people and culture is a seemingly new idea amongst the HR community. It ’ s a more progressive approach to managing people, and there ’ s even a new software out there specifically designed to approach HR from a people and culture stand point. Rather than having to refer to employee numbers, files, and other administrative paperwork it gives everyone in the company a name and a personality, rather than viewing employees as human assets.

People And Culture: Empowering Your Team | The HR Gazette

The rise of people and culture First, as simplistic as it may sound, people and culture relieves the negative stigma that has long been held against HR, pegging us as policy makers, bureaucracy advocates, and politically correct paper-pushers. And that nuanced distinction fosters buy-in from the people.

Much of Africa's cultural activity centers on the family and the ethnic group. Art, music, and oral literature serve to reinforce existing religious and social patterns. The Westernized minority, influenced by European culture and Christianity, first rejected African traditional culture, but with the rise of African nationalism, a cultural revival occurred.

African People and Culture - Africa Guide

Culture can be viewed as the customs, arts and social interactions of a particular nation, people or other group to which people belong or identify. It can also be defined as an appreciation of the arts and human intellectual achievement. In both views, examples of culture can provide a good way to get a quick understanding of culture.

Examples of Culture

For example, if most of the people in an organization are very outgoing, the culture is likely to be open and sociable. If many artifacts depicting a company ' s history and values are evident throughout the company, people value their history and culture.

Culture: The Environment You Provide for People at Work

Survey of the history, society, and culture of the Australian Aboriginal peoples, who are one of the two distinct Indigenous cultural groups of Australia. It is generally held that they originally came from Asia via insular Southeast Asia and have been in Australia for at least 45,000 – 50,000 years.

Australian Aboriginal peoples | History, Facts, & Culture ...

The culture of the People's Republic of China is a rich and varied blend of traditional Chinese culture with communist and other international modern and post-modern influences. During the Cultural Revolution, an enormous number of cultural treasures of inestimable value were seriously damaged or destroyed and the practice of many arts and crafts was prohibited. Since the early 1980s, however, official repudiation of those policies has been complemented by vigorous efforts to renew China's remar

The culture of Indonesia has been shaped by long interaction between original indigenous customs and multiple foreign influences. Indonesia is centrally-located along ancient trading routes between the Far East, South Asia and the Middle East, resulting in many cultural practices being strongly influenced by a multitude of religions, including Buddhism, Christianity, Confucianism, Hinduism and ...

Culture of Indonesia - Wikipedia

People from cultures that promote individualism (Western cultures) are found to be less capable of understanding someone else ' s perspective. Besides this, the art, folklore, traditions, language, among other components of culture that we are exposed to, define our personalities. We acquire beliefs and knowledge of the world from the people ...

This book provides readers with a topical, social-anthropological introduction to the Middle East. It synthesizes historical, ethnographic, and socioeconomic data within a social science framework., and places in proper context the region's distinctive “ way of life ” —which has always been at the crossroads of cultures and civilizations. Comprehensive and straightforward coverage includes distinctive theoretical forms without the use of social science jargon.. Chapter topics include the prophet, religion, identity, and culture of Islam; communal identities and ethnic groups; pastoralism and nomadic society; agriculture and the changing village; cities and urban life; women and the social order; leadership, patronage, and tribalism as local organizations of power; and challenges and dilemmas facing the Middle East today. For individuals who want to explore problems, patterns, and cultural processes of the area known as the “ central Middle East. ”

This is a significant update to the highly influential text *People and Cultures of Hawaii: A Psychocultural Profile*. Since its publication in 1980, the immigrant groups it discusses in depth have matured and new ones have been added to the mix. The present work tracks the course of these changes over the past twenty years, constructing a historical understanding of each group as it evolved from race to ethnicity to culture. Individual chapters begin with an overview of one of fifteen groups. Following the development of its unique ethnocultural identity, distinctive character traits such as temperament and emotional expression are explored—as well as ethnic stereotypes. Also discussed are modifications to the group ' s ethnocultural identity over time and generational change—which traits may have changed over generations and which are more hardwired or enduring. An important feature of each chapter is the focus on the group ' s family

Where To Download Peoples And Cultures Of The Middle East

social structure, generational and gender roles, power distribution, and central values and life goals. Readers will also find a description of the group's own internal social class structure, social and political strategies, and occupational and educational patterns. Finally, contributors consider how a particular ethnic group has blended into Hawai'i's culturally sensitive society. *People and Cultures of Hawai'i: The Evolution of Culture and Ethnicity* will, like its predecessor, fill an important niche in understanding the history of different ethnic groups in Hawai'i.

This textbook is the only single book available at this time to highlight the importance of this region of the world. Each chapter in the book is written by anthropologists who have done ethnographic research in each country discussed. Chapters include material on the geography, prehistory, languages, demography, history, and discussions of the contemporary economy, family, gender, ethnic, political, and religious developments in these various countries.

This second edition of *Historical Dictionary of the Inuit* provides a history of the indigenous peoples of North Alaska, arctic Canada including Labrador, and Greenland. This is done through a chronology, an introductory essay, an extensive bibliography, and over 400 cross-referenced dictionary entries on significant persons, places, events, institutions, and aspects of culture, society, economy, and politics. This book is an excellent access point for students, researchers, and anyone wanting to know more about the Inuits.

"This book provides the first overall survey of the peoples and cultures of Micronesia since the anthropological information explosion on the area began in the 1950s. It attempts to summarize these studies in a logical and coherent fashion. Ten island societies of Micronesia have been selected and discussed in some detail; these societies reflect a range of cultural adaptations to the varying microenvironments of the region. An attempt is made throughout to emphasize similarities in organizational patterns, where such exist, without losing sight of individuality."--Preface.

The Making of the West is a story of interactions — cross-cultural exchanges that span the globe, as well as the ongoing interactions between societies, cultures, governments, economies, religions, and ideas. To highlight these interactions and help students grasp the vital connections between political, social, and cultural events, *The Making of the West: A Concise History* presents a comprehensive picture of each historical era within a brief chronological narrative. The book also situates Europe within a truly global context, facilitating students' understanding of the events that have shaped their own times. A full-color map and art program deepen students' understanding of the narrative.

Captures the rich diversity of human life as it examines more than two hundred ethnic groups, large and small, around the world, through a visual study of beliefs, traditions, lifestyles, and environmental conditions.
